This are my notes from David J. Belief in success is the one basic, absolutely essential ingredient of successful people. It is well to respect the leader. How to develop the power of belief: Remind yourself regularly that you are better than you think you are. The size of your success is determined by th size of your belief. Many surrender in whole or in part to health excusitis, but success-thinking people do not. Schindler The right attitude and one arm will beat the wrong attitude and two arms every time. Four things you can do to lick health excusitis: Refuse to talk about your health. Refuse to worry about your health. Be genuinely grateful that your health is as good as it is. What really matters is not how much intelligence you have but how you use what you do have. The thinking that guides you intelligence is much more important than how much intelligence you may have. The ability to know how to get information is more important than using the mind as a garage for facts. Never underestimate your own intelligence, and never overestimate the intelligence of others. Build Confidence and Destroy Fear Action cures fear. Indecision, postponement, on the other hand, fertilize fear. Use big, positive, cheerful words and phrases to describe how you feel. Use bright, cheerful, favorable words and phrases to describe other people. Use positive language to encourage others. Use positive words to outline plans to others. See what can be, not just what is! Look at things not as they are, but as they can be. Visualization adds value to everything. A big thinker always visualizes what can be done in the future. Practice adding value to things. Practice adding value to people. Practice adding value to yourself. Top level leaders in all walks of life spend much more time requesting advice than they do in giving it. The way we think toward our jobs determines how our subordinates think toward their jobs. Are all my habits such that I would be glad to see them in my subordinates? Would an important person worry about this? Would the most successful person I know be disturbed about this? What would an important person do if he had this idea? Do I look like someone who has maximum self-respect? Am I using the language of successful people? Would an important person read this? Is this something successful people would discuss? When I lose my temper: Is this the kind of joke an important person would tell? How does an important person describe his job to others? Think your work is important. Give yourself a pep talk several times daily. Go First Class The number one obstacle on the road to high-level success is the feeling that major accomplishment is beyond reach. This attitude stems from many, many suppressive forces that direct or thinking toward mediocre levels. Those who surrendered completely: Those who surrendered partially: This group includes many talented, intelligent people who elect to crawl through life because they are afraid to stand up and run. Those who never surrender. Go first class when you have questions. Seeking advice from a failure is like consulting a quack on how to cure cancer. Go first class in everything you do.

## Chapter 2 : The Little Big Book of Magic

*Bestselling author D. J. Conway shows how to integrate magickal practices into your daily life and reap the benefits of their richly diverse potential in this omnibus edition of four popular titles in the Little Book of Magic series. Altar Magick: Creating an altar helps us become more receptive to the sacred.*

Its spine was torn, its cover was marked with a jagged water stain, and its cover was slightly ajar. From what was printed on the cover, the book "which had been tossed among other incongruous items on an auction table" contained magic tricks by Harry Houdini and other magicians. I obviously wanted to see what some of these tricks were, so I hastily started turning pages. These were more stunts than magic, but they did appear to be engaging. The book was one of several to be published by Houdini and another magician, but Houdini died of peritonitis from a ruptured appendix in before the first one was published. His wife Bess ended up doing her own book of his magic tricks in . She and Houdini had met in the early s while he was performing in a magic show with his brother Theo at Coney Island. Theo had first dated her, but she and Harry got together and were married three weeks later. Harry Houdini and his wife Bess captured on a cabinet card, along with the inside cover page of the book. He gave up the magic and became an escape artist "a move that sealed his legacy after he made it big in . He had developed an interest in magic years before after reading about a French magician named Jean Eugene Robert-Houdin , from whom he borrowed his new name. Houdini was born Erik Weisz and renamed Ehrich Weiss by his immigrant parents after moving to America in Budapest, Hungary, in ; he came to this country as a child in . The two met often, with Houdini deciding on which of his tricks to include. Gibson completed the first book and decided to finish the second before sending them to Houdini. The magician died before seeing either of them. She gave Gibson permission to publish the first book under his own name. None of the other books as conceived by Houdini and Gibson were ever published. There was not enough material available, so the company filled out the pages with the works of other magicians. More than pages from the book, which was published in , are from Houdini. Whitman also retained the copyright date. Houdini trick to rearrange pennies.

Mini-series[ edit ] The Books of Magic began life when DC Comics decided to highlight some of their mystical characters across the range. They initially approached writer J. At that stage, DeMatteis also decided to step back, [2] and DC instead approached popular writer Neil Gaiman and asked him to come up with a four-issue prestige-format series "about our magic characters". Gaiman used the four issues to formally split the structure of the story, and allow for a different artist to draw each issue: Jeter when he was forced to use magic to prevent Mister E from killing him. Berger struggled to find a writer suitable for the project, however, with writers like Dick Foreman struggling to handle the character of Tim. Berger eventually approached John Ney Rieber after having seen some of his work, convinced that he would be able to meet the challenge of developing Tim into a fully rounded character. Rieber was asked to come up with a story outline for the proposed series, but these were rejected by Berger and DC. Still convinced that Rieber was the writer for the job, however, Berger asked him to persevere: Of course he gets on my nerves. Gross was then asked if he could expand his ideas into an actual story, and plotted a six issue story that he thought might be used as a "filler" until a new writer could be found. It was also announced that the new mini-series would be followed by an unnamed new ongoing monthly series, [14] which was eventually announced as Hunter: The Age of Magic. Please help improve it by removing unnecessary details and making it more concise. Equally, he could turn from the world of magic completely and be lost to either side. They take him from the birth of the universe all the way through to its eventual death, ostensibly teaching him about the possibilities - and the price - of wielding magic before he decides whether to embrace his destiny. Following his misadventures, Tim decides that the price is too high. However, this story was merely the backdrop to a more personal story for Tim, as he discovered that the Falconer Tamlin who kidnapped Tim during the events of the Arcana: Tim revives and releases a unicorn that has been similarly hunted, and destroys the Manticore - but not before he is poisoned by it. Several of his characters, including Tim, seek to avoid their problems in the real world by escaping into fantasy, but Rieber later explained "Wishing never solves anything in the Books. At best, it gets you into trouble. However, their plans are thwarted without Tim even being aware of them, as he has a guardian angel called Araquel. Unfortunately, Araquel is chained between Heaven and Hell for having had a daughter called Nikki with Khara. Tim is saved once from Leah by the arrival of Molly, as the succubus is touched by the genuine love between the two. This leaves Leah without a master, a position that she attempts to make Tim fill before the young magician proves his worth by setting her free. Daniel, the chimney sweep, and Marya, the girl who was sent to bring Tim to Free Country but decided to stay in the real world after she did. He eventually manages to unfreeze them again, but fall prey to a monster of black, choking soot. Slingsham is collecting an army of down-and-outs, capturing their souls in magical contraptions: The Reverend falls foul to Tim thanks to the intervention of one of his childhood imaginary friends made real, Awn the Blink, who has an amazing knack for fixing broken things. Daniel, meanwhile, gives up his attack when Marya rejects his affections. For his trouble, Auberon tells Tim that Titania cannot possibly be his mother, since the boy has "not a drop" of Faerie blood in him. However, Barbatos drags the children and the dragon Sir Timothy into another layer of Hell, where he attempts to salvage victory from defeat by trapping the two children in a fairy tale world where brave knights kill dragons. Sir Timothy dies protecting Molly from the destruction unleashed by Tim, and the two children are reunited. As they return home, they leave Barbatos trapped in the ruins of the world he created, [18] although he does briefly escape again. Molly manages to sneak out and ends up around a camp-fire discussing Tim with Marya and a mysterious tattooist who says she wants to help. The tattooist demonstrates her experience of both men and magic when Marya is again threatened by the arrival of Daniel: Molly tells her companions about Sir Timothy Hunter, unaware that Tim has transformed himself into a cat and is listening in. The tattooist is aware, however: Instead, she offers to give him a tattoo that will stop him from ever hurting Molly: She attempts to attract a fairy in the hope that they will grant her wish, but when she succeeds in drawing the Amadan to her, she accidentally challenges

him to a contest to see who is the greatest fool. Knowing something of the Fair Folk from her grandmother, Molly knows that if she eats Faerie food she will never be able to return home: Instead, she attempts to grow her own real food, her efforts attracting the attention of the Faeries, and her stubbornness attracting the ire of Titania: The magician provides the proper environment for Tim to let his tattoo come alive and leave him: Tim is about to accept the moth back onto his heart when the magician distracts him, but the tattoo still manages to return to his arm. Following his experience, Tim decides that what he needs is a mentor to teach him about magic and sets off for America to find Zatanna. She convinces Tim to travel with her, and accompanies him out into the desert on a camping trip. In the night, Leah disguises herself as Molly and tries to sleep with Tim: Tim kisses Leah, and the two continue where they left off. Tim wakes in the real world and continues on his journey without a second thought for the succubus. He manages to escape the island with the help of Huon the Small, the first King of Faerie. Huon and Tim travel into the heart of Faerie. Prince has spent most of his life in Hell, given to the lords there in payment of a tithe originally agreed by Huon. In truth, Faerie is not a kingdom of its own, but part of Hell that Lucifer offered to the Fair Folk when they first left the Mundane World. Without such belief, the realm and all who are in it start becoming undone by something known as "the Leveler". The flitting Yarrow saves Fairie: There is much celebration and as Tim and Molly are reunited, Titania tempers her curse as best she can: Zatanna tries to teach Tim to open his eyes, but in the end has no choice but to help Molly. At first, she berates him for his inability to connect to the real world - until she spots his moth tattoo and realizes that it is preventing him from being able to connect so that he never has anyone close to him to get hurt. She encourages him to "open" himself and let the world in, which removes the tattoo and eventually leads Tim to decide that his magic belongs to the world and not him. He releases it into the universe and resolves that he will have nothing more to do with it. Returning home with the fallen angel Araquel "who had previously been tricked in to breaking his chains by Barbatos" Tim finds that the armies of Heaven and Hell are fighting each other to a standstill in the mortal world. The prize they are fighting for is the magic that Tim released into the world, which would give them the power to recreate the world to their own design. It transpires that Mister Vasuki, the surgeon who miraculously restored Mr Hunter to health after the fire, is in truth a demon hoping to force Tim to work for him. Araquel becomes their victim, turned into chocolate and smashed to pieces on the ground. Tim uses Awn the Blink and Reverend Slaggingham to trap all the angels and demons. In his anger, Tim throws an ice-cream at the leader of the angelic forces She calls an end to the conflict having achieved her objective: Tim is just enjoying his new freedom from magic when he finds the box that Leah used to live in: He spends a lifetime there, talking to a tree that grew from a seed that fell inside his patch of ground. Exasperatingly, Leah cannot even decide if Tim is wholly wrong in thinking that way. Instead, she leaves Tim with the important reminder that he might try to throw away his magic, but he will never wholly succeed: However, Tim is unaware that his Other has already arrived in the true world, causing a traffic accident that injures his father and Cyril and kills his stepmother, Holly. Living as Mary and working at the Inn, Tim becomes best friends with a girl called Joh - a relationship complicated when she sees him as Tim and falls in love with him, forcing Tim to admit the truth. Tim faces up to his responsibilities, and sacrifices his future: The final image of the issue, and The Books of Magic, showed Tim whole and complete, finally grown-up and ready to face whatever challenges the future held with "no more whining". Neither of these annuals have been republished in collected editions. The artwork was by artist Paul Lee. The two issues showed Tim Hunter coming into possession of a time capsule that had been made by John Constantine as a child. Tim attempts to return the box to its original owner, but Constantine wants nothing to do with it; until it falls into the hands of a demon called Kobal "Master of the Infernal Theatre". A Day, a Night and a Dream. Age of Magic[ edit ] Another ongoing series called Hunter: The Age of Magic 25 issues followed shortly after the end of this series. It ran from September to September , and told of his graduation and what happened to him afterwards. Life During Wartime began in July and lasted fifteen issues. This series depicts two Earths, both of which have a strong connection to an alternate version of Tim Hunter. On one of these worlds a war is going on between humans known as the Bred and the races of the Faerie known as the Born. The world is ruled by the Born, but there is a resistance made up of both Born and Bred that features versions of Zatanna and John Constantine among others. The second world is one made by Tim
