

Chapter 1 : Marvel's Spider-Man Is the Fastest-Selling PlayStation Exclusive of All Time - IGN

Adam Rahman's second book, The Greatest Man of All Time: A Mercy to The World is an even better and bolder book. Adam was born and raised in the United States. He holds a B.S. from the University of Illinois, Urbana-Champaign and an MBA from the University of California, Berkeley.

As one who remains true to himself and his beliefs while adapting to all circumstances and times, despite external pressure or influence, More represents "a man for all seasons. I know not his fellow. For where is the man of that gentleness, lowliness and affability? And, as time requireth, a man of marvelous mirth and pastimes, and sometime of as sad gravity. A man for all seasons. Please help improve this article by adding citations to reliable sources. Unsourced material may be challenged and removed. A Man for All Seasons struggles with ideas of identity and conscience. More argues repeatedly that a person is defined by his conscience. His own position is depicted as almost indefensible; the Pope is described as a "bad" and corrupt individual, forced by the Emperor Charles V to act according to his will. At another key point of the play, More testifies before an inquiry committee and Norfolk attempts to persuade him to sign the Succession to the Crown Act pp. Oh, confound all this. But damn it, Thomas, look at those names. You know those men! And when we stand before God, and you are sent to Paradise for doing according to your conscience, and I am damned for not doing according to mine, will you come with me, for fellowship? Instead, More informs Norfolk of the plot, showing him to be patriotic and loyal to the King. Bolt also establishes an anti-authoritarian theme which recurs throughout his works. All people in positions of power â€” King Henry, Cromwell, Wolsey, Cranmer, Chapuys, even Norfolk â€” are depicted as being either corrupt, evil, or at best expedient and power-hungry. More answers that Rich has broken no law, "And go he should if he were the Devil himself until he broke the law! Cut a great road through the law to get after the Devil? And when the last law was down, and the Devil turned round on you â€” where would you hide, Roper, the laws all being flat? Several sequences involving this character break the fourth wall â€” most notably, a sequence where the Common Man attempts to exit the stage and is addressed by Cromwell, who identifies him as a jury foreman. The place of the Common Man in history is emphasized when he says in his opening speech, "the sixteenth century was the century of the Common Man-like all the other centuries. This section needs additional citations for verification. July Learn how and when to remove this template message Two different endings were written by Bolt. If we should bump into one another, recognize me. Stage productions[edit] Paul Scofield , who played the leading role in the West End premiere, reprised it on Broadway in , winning a Tony Award. Both productions were directed by Noel Willman.

Chapter 2 : The 25 Greatest Spider-Man Stories Of All Time, Officially Ranked

The reason that Shakespeare is not of an age but for all time is that he serves the Holy Spirit and not the spirit of the age. The truths that inspire his Muse, and the truths that emerge in the fruits of his Muse—his plays and poems—are the truths of the Holy Spirit, the truths of the Trinity, the truths of Christ.

Bryan Frye 10 Comments Sometimes when I am bored, I make football lists or rosters in my head what is the all-time Steelers team, what is the current all-NFC South team, what is the all-time Hispanic team, etc. Of all the whimsical thought experiments in which I have engaged, the one with the most decisions and revisions has been my all time 53 man NFL roster with coaching staff. The purpose of building an all time 53 man NFL roster is not to simply pluck the best 53 players out of history. The important thing to me is depth, which means I value versatility from the players on the roster. Yes, Jan Stenerud was a great kicker, but why put him on the team when I can have Gino Cappelletti kick, return kickoffs and punts, take handoffs, and catch passes? You get the idea. I will make exceptions for most starters, but I want most of my backups to contribute in more than one area. Having read the comments sections in some popular sports sites, I feel that it is necessary to make the following disclaimer: Players will be picked, in large part, based on how they performed in their respective eras. Either way, if we go about it the right way, we can all be enriched by the discussion. Seven time first team All Pro. Fourteen time Pro Bowl selection. Statistically the greatest quarterback of all time. He has played with stellar offensive teammates and mediocre offensive teammates, and he has thrived with both. He has a reputation as a choker in the playoffs because, like most quarterbacks, his play drops off against better competition the Montanas and Starrs of the world are the anomalies. Seven time Pro Bowler. Aside from Manning, no quarterback has ever had as dominant of a statistical run as Young did between and Throw in preternatural scrambling ability , and you have possibly the most gifted quarterback ever to play. Eight time first team All Pro. Nine time Pro Bowler. In his nine seasons in the league, he led the NFL in rushing eight times. He finished his career averaging over yards per game, and he was undoubtedly the most dominant pure runner in football history. Similar to watching prime-LeBron James, Brown was too fast for the bigger players and too strong for the smaller players. His unwillingness to block means he comes off the field on third downs. If Brown was the most dominant running back of all time, Payton was the most well-rounded. He ran with fury and blocked with power. Gale Sayers — Five time AP1. Four time Pro Bowler. I wanted a scat back on the roster, so it came down to a tossup between Sayers and Barry Sanders. He was viewed by most as the best back in the league for his first five years, and many historians consider him the most talented back in league history. At a time when linemen weighed about pounds, the pound Nagurski completely dominated the game on the ground. Stats from the time are spotty, so turning to hagiography is necessary. He was viewed as a bruising runner and a punishing blocker. He was named to All Pro teams as a running back, defensive lineman, and offensive tackle, making him the only player ever to achieve the feat at three separate positions not including kicker. Thirteen time Pro Bowler. The career leader in every important receiving category. Precise route runner with deceptive speed and great hands. His work ethic is legendary and contributed significantly to his ability to play at a high level for nearly two decades. If you only include the numbers he put up during and after his age 30 season , he would still rank ninth in receptions, eleventh in receiving yards, and seventh in receiving touchdowns. Led the NFL in receptions a record eight times and in yards a record six times. He essentially invented the wide receiver position as it exists today. When he retired he had more than double the catches, yards, and touchdowns of the next closest receiver. He was also second all-time in interceptions at the time he retired. It would be dishonest not to note that he played in a barely integrated league and had his best statistical seasons when many starters were overseas fighting in WW2. If Rice and Hutson are my two all-around receivers, Alworth is the first of my two deep threats. He may have the best statistical peak of any wide receiver in league history. Randy Moss — Four time AP1. Six time Pro Bowler. Had a reputation for taking plays off, but when he wanted to he could completely take over a game. His blazing speed made even the best pursuit angles all but useless. There have been twelve seasons in which a wide receiver caught 17 or more touchdown passes. Moss accounts for three of them, including his record 23

TD season. With the emergence of several big, fast receivers lately, we tend to forget that Moss was hands-down more dominant than any current wide out. Raymond Berry â€” Three time AP1. This begins the possession receiver section of the team. He only broke a thousand yards once and ten touchdowns twice, but he could catch anything and achieved incredible separation on routes. His timing with Johnny Unitas was legendary, and he is generally credited with inventing the timing route. Michael Irvin â€” One time AP1. Five time Pro Bowler. However, no one who saw him play could honestly deny his greatness. He was among the greatest ever at fighting for the ball, which made him a viable deep threat in addition to his possession receiving ability. Emmitt Smith vultured copious touchdowns from him, so he only scored ten once, and he finished his career with a paltry 65 scores. Three time Pro Bowler. There are several Hall of Fame tight ends who have put up more impressive career numbers, but Gronk â€” despite only starting 54 career games â€” has already entered the top ten in touchdowns among all tight ends. He is the best offensive player in football when healthy, and he is one of the few active players to make the squad. Mike Ditka â€” Two time AP1. The first truly great tight end in league history, Ditka changed the way the position was played. As it is, he still scored 12 touchdowns as a rookie and finished his career with 43 receiving scores. Tony Gonzalez â€” Six time AP1. Fourteen time Pro Bowler. The most statistically dominant tight end of all time, he brought a new form of athleticism to the game â€” one which he used to dominate defenses. He played with remarkable consistency for over fifteen years, despite not having a true receiving threat to draw coverage away until he got to Atlanta in his 13th season. Eleven time Pro Bowler. In case you missed it, in his 13 year career, he was named the best tackle in the NFL nine times! He blended incredible strength with nimble feet, all but neutralizing the man lining up across from him on any given play. He is considered by many to be the greatest offensive lineman of all time. In addition to the five titles he won in Green Bay, he won another with Dallas, making him one of just three players to ever win six NFL championships. Lombardi, who coached his share of Hall of Fame players, called Gregg the best player he ever coached. Hubbard weighed in over pounds in an era when pound linemen were the standard. On the other side of the ball, he just happened to be one of the top defensive tackles in the league too. He has been referred to as the greatest lineman of all time, and he is never ranked outside the top three by any respectable football analyst. He was a ferocious blocker at the point of attack, and, despite his stature, he was fast and agile. His athletic prowess made him a terror at the second level for linebackers and defensive backs. One of the first true maulers in the modern era. Eight time Pro Bowler. Was named to four All Pro teams at both guard and tackle, so he and Gregg can switch back and forth if the coach is feeling squirrely. This was in an era when linemen had to block defenders with their elbows. Not dominant enough to start at guard or center, but good enough at both positions to make All Pro teams at each. He made his first and last All Pro teams twelve years apart, his last at the age of 39, which is amazing. He was dominant at all three positions on the interior line, but he started and excelled at all five line positions. I think of him as the Gale Sayers of offensive linemen with Tony Boselli as the runner up. His career was brief, but it was clear when he played that he was the class of his position. Was so dominant on offense that he was a finalist for the Heisman Trophy as a lineman a rare feat. Bednarik will provide depth on both side of the ball. Possibly the most dominant defensive lineman of all time. He gained at least eight sacks in each of his first fourteen years in the NFL before recording only 5. This includes a remarkable 21 sacks in twelve games in the strike shortened season. White also shares the Super Bowl record for sacks 3 with Darnell Dockett. Deacon Jones â€” Five time AP1.

Chapter 3 : The Ten Worst SPIDER-MAN Costumes of All Time

From the blockiest wall crawlers to the shiniest web slingers, these are the 10 major Spider-Man games ranked from worst to best. When it comes to superhero games, Spider-Man has almost always.

Forced to battle the likes of Rhino, Lizard, Mysterio, Sandman, Electro, Chameleon, Morbius and Hammerhead one after the other, the endless onslaught of foes begins to take a toll on Spider-Man. As it turns out, the Kravinoffs -- the psychotic family of the deceased Kraven the Hunter -- were eventually revealed as the masterminds behind the whole ordeal, hoping to wear Spider-Man down before sacrificing him in a blood ritual to resurrect Kraven. Blaming Spider-Man for the death of his father, Harry quickly descended into madness, hoping to hurt Peter both physically and mentally in a bitter campaign of vengeance. Despite all of this though, there was clearly still a little piece of Harry reluctant to kill Peter, with the Goblin opting out of finishing off Spider-Man several times throughout their skirmishes. In addition to this, Harry also promises MJ that she and Aunt May would remain unharmed given his fondness for them -- a luxury Norman Osborn would never have afforded Peter. Nevertheless, Harry eventually doses Peter with a hallucinogenic drug and traps him in a building armed with explosives. Upon realizing that several people are still in the building, including Normie Osborn and MJ, Harry is convinced to save them, also rescuing Peter in the process before collapsing. In the story, the Jackal -- in league with the nefarious Spider Queen -- gives the residents of Manhattan spider-powers, causing citywide chaos as the Avengers attempt to tackle the sudden swell in superpowered crime. Teaming up with several heroes, including Captain America, Anti-Venom and Agent Venom, the Spider Queen is eventually foiled, with a grateful Manhattan publicly thanking Spider-Man for his heroic actions throughout the incident. Truly giving Spider-Man the fight of his life, Morlun beats him to a bloody pulp, forcing the hero to flee on several occasions, eventually threatening innocents to bring the webslinger out of hiding. Bonded with the alien symbiote previously worn by Spider-Man, Eddie Brock becomes Venom, hoping to exact revenge on Spidey by murdering him. Blue is the crowning achievement of the series conceived by writer Jeph Loeb and artist Tim Sale. Spanning six issues released from July to April, the story takes a pensive look back at the iconic relationship between Peter Parker and Gwen Stacy before her untimely death at the hands of the Green Goblin. Blue sees Peter dictate his thoughts about Gwen into a tape recorder, revisiting several key moments from their relationship through a nostalgic, albeit melancholic lens. One such casualty was Marla Jameson, wife of J. Jonah Jameson, who died taking a bullet for her husband after mad scientist turned Spider-Slayer Alistair Smythe incited a violent crusade against the Jameson family. Uniting under one single purpose, to kill Spider-Man, the group of villains resorts to kidnapping Betty Brant and Aunt May to draw their prey out. With each character hoping to deliver the fatal blow to the wall-crawler however, the gang agrees to attack their foe one by one to give each of them a shot at defeating him. What follows is an action-packed series of beautifully illustrated battles between Spider-Man and each individual member of the Sinister Six. Granted a mystical force by the demon Cyttrak that renders him completely unstoppable, Spider-Man is unable to subdue the Juggernaut by conventional means, forcing him to improvise to take down the rampaging villain. So why is it that the story has become so incredibly popular over the years? Villain of the month? What sets this story apart from other Spidey stories however is its execution. Optimistic, strong, smart and compassionate, Amazing Fantasy 15 solidified Spider-Man as the definitive superhero, making it perhaps the most important Marvel comic ever written.

Chapter 4 : The 10 Strongest Men of All Time | TheRichest

A Man for All Seasons is a British biographical drama film in Technicolor based on Robert Bolt's play of the same name and adapted for the big screen by Bolt himself. It was released on 12 December

Email Copy Link Copied For as long as feats of strength have been recorded, we have always been obsessed with just who was the greatest of them all. Since the myths of Hercules and the ancient Olympic wrestling matches, there had to be one above the others. Still, with multiple venues to showcase their power, there are many claimants to the throne of who is the strongest of them all. Each competition has their favorites and each one can make a legitimate claim for the title. WSM purists might argue for the only five-time winner, Mariusz Pudzianowski. Some of these men are separated by generations and pitting them against each other took some conjecture. We have to take into account their lack of advanced training methods or chemical enhancements when we rank the older claimants against the younger generations. While working as a police officer he amazed the public by climbing a ladder carrying a horse in a sling or bending a quarter between his thumb and forefinger. After his death in , his autopsy revealed that he possessed double tendons and a four-inch thick spine, double that of most men. Some experts even believed he had more stamina and overall strength than his hero, Louis Cyr. A former Montreal police officer, Cyr entered competitions as a wrestler and weightlifter. He traveled internationally exhibiting feats of strength and astonishing audiences by holding back the pull of four horses and pushing a freight car up an incline. He most famously lifted a platform on his back which held 18 men; at a reported weight of 4, lbs. Cyr once lifted a rock from the ground up to his shoulder that weighed an incredible lbs. He set the record for lifting the heaviest weight with one hand, lbs. He has competition bests of 1, lbs. Outside of competition, his personal bests include an lbs. Impressive, to say the least. He held the British record for the bench press with a lift of lbs. His three-lift total of 2, lbs. A prideful boast if made by anyone else, totally believable coming from him! He is the only man to ever hold both the U. Mark Henry won the first Arnold Strongman Classic in , and even more impressively, was the first man to ever one-handedly clean and press the infamous Thomas Inch Dumbbell a feat that most strongman throughout history were unable to do! He might have been the strongest man ever! He did so with sheer raw power. His modest lb. That should say a lot about this Polish strongman. These facts alone warrant a place on this list near the top. He began his training when he was aged just 13, and now boasts impressive personal bests of benching lbs.

Chapter 5 : Falling Man | Photographs | The Most Influential Images of All Time

A Man for all Seasons is simply a fantastic film which I highly recommend to anyone who enjoys historical dramas. The film is directed by the late great Fred Zinnemann, who has helmed such diverse classics as From here to Eternity and Day of the Jackal, brings a sense of immediacy to the screen, and thereby transcends some of the screenplays stage like origins.

Maybe you snap or want to snap at everyone around you “ because your anger feels like a tsunami. Where does this unexplained anger come from? What does it mean? There may be many different causes. One explanation is that you have weak boundaries. You say yes when you really want to say no. But you might not make the connection, said Julie de Azevedo Hanks, Ph. Maybe you expected your spouse to help out more around the house. Years ago, Farris worked with a young woman who realized that focusing on what others did triggered her frustration. Sometimes, you might not feel angry at all. Rather, your actions might be passive-aggressive, and you might feel resentful. For instance, Hanks worked with Cindy not her real name , a woman in her 30s who seemed cheerful and positive”and exhausted. Cindy was an excellent caretaker and had great empathy for everyone but herself. She has two kids with disabilities. Her husband rarely helped. He either disconnected from the kids or exploded at them. Cindy worked very hard to keep everyone happy. Once she connected to her thoughts and feelings, she realized that she felt angry about doing most of the parenting and letting her husband off the hook for not interacting with their kids. She also realized that beneath her anger was loneliness. Become aware of your early warning signs of anger. Which may be different for everyone. Express your emotions without blaming the other person. Plan ahead to handle difficult situations. Take deep breaths to stay in the moment. Notice negative thoughts that trigger your irritation. Take a break when a situation starts to escalate. With her clients Hanks uses the metaphor that emotions are an ocean. Then she asks them to brainstorm the emotions that might be swimming below the surface. Remember that angry feelings are not the same as violent behavior, Hanks said. She also explores self-image issues on her own blog Weightless and creativity on her blog Make a Mess:

Chapter 6 : All Time 53 Man NFL Roster - The GridFe

In A Man for All Time - The Incomparable Christ, Pastor Mark Finley features various aspects of Christ's life to illustrate the Lord's ability to meet the deepest needs of the human heart. Whether you use this video series at your church or in your home, those watching will receive blessings through the dynamic sermons.

Nov 9, 4: He spoke to David Malsher. For many years, it seemed that IndyCar had the best-structured feeder formula system in the world. But the categories themselves are logically structured: Mazda, loyal backers of the series since , also introduced a scholarship program so the champion of each category received a substantial prize to help him and usually his team graduate to the next level. Since , the Lights prize has guaranteed the champion three entries in IndyCar races the following year, including the Indy It should have been a glittering success, and in some respects it has been. Problem is, neither Indy Lights nor Pro Mazda have been hugely successful in terms of grid numbers and there are many theories about why this is so. Is Indy Lights too expensive for what it offers in terms of TV coverage for the sponsors of young drivers? Certainly Schmidt Peterson Motorsports and Carlin Racing pulling their multi-car entries in consecutive seasons would suggest so, although both squads are some ways down the road to returning in Both Sam Schmidt and Trevor Carlin admit they received serious inquiries from well-funded drivers over the past couple of seasons, but they each have an aversion to running a one-car program, and finding a second driver with enough money was the issue. That being the case, Michael Andretti " who tells Motorsport. Last year only seven drivers competed in every Pro Mazda round. He spoke candidly to Motorsport. Santiago Urrutia Photo by: Indianapolis Motor Speedway DM: What are your feelings about the European open-wheel ladder system and how it compares to the Road to Indy? I thought they were doing a good job. The bottom ranks, F4 and Renault Eurocup, are still reasonably cheap and you get a good amount of track time for your money. After talking to some guys in Barcelona at the Euroformula Open and Formula Renault round, 90 percent of the feedback I got was amazement that an Indy Lights budget for a year is, give or take, around just a million bucks. And does the relative lack of TV coverage hurt the chances of a driver from landing a big sponsor? Foster those relationships in the Lights paddock, and you might take them to the next level. Why were there only seven or eight Lights cars on the grid this year? Well I think there was a perfect storm of circumstances. In , the last year of the old " ancient! This year, with Pro Mazda fields getting stronger, deeper, there will be more drivers moving up to Lights in And there were also rumors of parity issues regarding engines in that I think temporarily hurt the series in the eyes of potential entrants. But that seems to be all resolved now, with an upgrade to the turbo wastegate, and there was no one complaining about engine parity this year. So I think that will encourage anyone who thought they were on the rough end of that deal the previous couple of seasons. Regarding Pro Mazda and the Tatuus PM that was introduced this year, before the season started there were engines throwing cranks, rev limits were having to be imposed, and then there were complaints that it used the same brakes as the USF despite having hp more. Have those issues been addressed? To put it bluntly, because I ran Team Pelfrey for the past four or five seasons, from this time last year through until March, I was pulling my hair out over the new car. But I can tell you that Dan [Andersen] was great and he really stepped up on the engine side and as we rolled into St. And yes, going back to your earlier point, we do go through brake pads a little more but at the end of the day, the USF hardly goes through them at all. Petersburg Photo by: Indianapolis Motor Speedway And how much impact do you believe the introduction of U. F3 and F4 have hurt the Road To Indy? I think, unfortunately, F4 did hurt F [the SCCA-run series that often serves as a stepping stone between karting and the USF series], which is a real shame, because of the number of F graduates who moved up to USF and were successful. F3 and F4 are doing. If so, get on the Road To Indy as soon as possible. USF has been strong and looks like it will remain so. In Pro Mazda it would be nice to solidify what we have and also take a step in the right direction as far as fulltime entries are concerned. Mazda Road To Indy Next article.

Chapter 7 : A Man for All Seasons - Wikipedia

First Man is a breathtaking piece of filmmaking that's filled with some of the most intense portrayals of spaceflight ever put on-screen. But for all of its technical wonder, the film's focus.

Bolt borrowed the title from Robert Whittington , a contemporary of More, who in wrote of him: I know not his fellow. For where is the man of that gentleness, lowliness and affability? And, as time requireth, a man of marvelous mirth and pastimes, and sometime of as sad gravity. A man for all seasons. Returning to his home at Chelsea at dawn, More finds his young acquaintance Richard Rich waiting for his return to lobby for a position at Court. More recommends instead that Rich find a job as a teacher. More finds his daughter Meg chatting with a brilliant young lawyer named William Roper , who announces his desire to marry her. The devoutly Catholic More states that he cannot give his blessing as long as Roper remains a Lutheran. Some time later, Wolsey dies of a heart attack. The King makes an "impromptu" visit to the More estate, but More remains unmoved as Henry alternates between threats, tantrums, and promises of unbounded Royal favour. After the King leaves, Cromwell promises Rich a position at Court in return for damaging information about More. Meanwhile, the King has Parliament declare him "Supreme Head of the Church of England" and demands that bishops and Parliament renounce all allegiance to the Pope. More quietly resigns as Lord Chancellor rather than accept the new order. His close friend, Thomas Howard, 3rd Duke of Norfolk , attempts to draw out his opinions in a friendly private chat, but More knows that the time for speaking openly of such matters is over. When More declines the invitation, he is summoned again to Hampton Court, now occupied by Cromwell. More is interrogated, but refuses to answer. Infuriated, Cromwell declares that the King views him as a traitor , but allows him to return home. Upon returning home, Meg informs her father that a new oath is being circulated and that all must take it or face charges of high treason. Upon learning that it names the King as Supreme Head of the Church, More refuses to take it and is subsequently imprisoned in the Tower of London. More is finally brought to trial, but refuses to speak about the marriage or why he will not take the Oath, and cites his silence in defence. More is convicted of treason on the perjured testimony of Rich, who has been made Solicitor General for Wales as a reward. More says goodbye to his wife Alice , Meg and Roper, urging them not to try to defend him. As the audience screams in protest, More is condemned to death by beheading.

Chapter 8 : A Man for All Seasons (film) - Wikipedia

Penned by one of the all-time great Spider-Man writers J. Michael Straczynski, Spider-Man: Back in Black deals with the fallout from the earth-shattering events of "Civil War", in which Peter Parker publicly reveals his identity as Spider-Man in an effort to win the public's favor in the conflict.

Lead The Best Leadership Quotes of All Time Sometimes the most powerful and meaningful things come from words that touch our heart and lead us forward to our potential. Getty Images Life is about discovering who we are; leading is about striving to become better than we are, and helping everything and everyone around us to become better too. Let these words inspire you, motivate you, encourage you and empower you to be the best you can be. You are here in order to enable the world to live more amply, with greater vision, with a finer spirit of hope and achievement. You are here to enrich the world, and you impoverish yourself if you forget the errand. A great leader leads the people from within them. He is the one that gets the people to do the greatest things. He does not set out to be a leader, but becomes one by the equality of his actions and the integrity of his intent. Think things through--then follow through. Try to please everybody. It is precisely that simple and it is also that difficult. If you seek to lead, invest at least 50 percent of your time in leading yourself--your own purpose, ethics, principles, motivation, conduct. Invest at least 20 percent leading those with authority over you and 15 percent leading your peers. Where there is an open mind, there will always be a frontier. Followers think and talk about the problems. When his work is done, his aim fulfilled, they will say: It is very easy to say yes. Indeed it is the only thing that ever has. It is about one life influencing another. When you become a leader, success is all about growing others. It is knowing what is right. Go instead where there is no path and leave a trail. The good teacher explains. The superior teacher demonstrates. The great teacher inspires. And they are made just like anything else, through hard work. You must do the thing you think you cannot do. Effective management is discipline, carrying it out. This, and not much else, is the essence of leadership. It can only be learned. Tell them what to do and let them surprise you with their results.
