In a somewhat unusual scheduling ritual, he allows himself to begin the writing process for a new book only after he has found a white feather in the January of an odd year. As odd as that may sound, it seems to be working. His 26 books have sold more than 65 million copies in at least 59 languages. His critics dismiss his writing as New Age drivel, promoting a vague spirituality devoid of rigor. Together the couple spends half the year in Rio de Janeiro and the other half in a country house in the Pyrenees Mountains of France. In , Coelho founded the Paulo Coelho Institute, which provides support to children and the elderly.

Chapter 4 : PAULO COELHO – The Ninth Pixel

The Pilgrimage is the first book by Brazilian author, Paulo Coelho, and translated into English by Alan Clarke. As a devotee of the Tradition, at 38 years old, Paulo makes the mistake, at the ceremony of his ordination as a Master of the Order of RAM, of assuming he is worthy of the sword, and then learns that he will have to travel the Road to Santiago de Castelin (aka the Jacobean route, the.

April 24, This is very simple story of the pilgrimage that Paulo took in It is his own story, but it sounds like a fictional tale because of the way he has written it. Paulo is a spiritual person; he follows some tradition in his religion. With his master, when he tried to obtain a sword it is something to do with spirituality , during the ordination he failed. So, he cannot be a master according to RAM. Only the people who have procured the sword can be masters. Why did he fail? Thus, his master says him to take the pilgrimage, where he is required to travel kilometer through The Pyrenees Mountains. The journey starts from a small city in France to Santiago de Compostela, Spain. Other than Rome and Jerusalem, this is the third and famous place for pilgrims. He starts journey with a mysterious guide Petrus. The purpose of the journey is to find that sword which will make him simple and effective in life, all the more. The journey is tough, physically, mentally, and spiritually. As they advance, various factors come into their lives, they pass through hamlets, towns, and each of the places has a story to tell to pilgrims. This route is taken by pilgrims for over thousand years now. Petrus, from time to time, teaches him various exercises in order to bring out the extraordinary from the ordinary ones. Evil and angelic both kind of forces they encounter en route, through animals like dog and lamb, and persons like saint, waiter, gypsy and a gang of boys and women. Initially Paulo thinks that the journey is futile and why the road to leading simple life is made so tough. He thinks of quitting, but every time some or other message that he gets, keeps him going. The most terrible incident is the fight with a dog called legion. That event marks the consequences of fear in human lives. Though he manages to win the fight, but he gets wounded badly. Well, the sword is a reward, but what is to do with that reward, is the main message of the pilgrimage. Also, he has to keep the good fight in life. The book is more suitable to spiritual persons and of course a treat for those who have taken pilgrimage at some point of life. Other than Paulo as a pilgrim, the characterization of Petrus is not only strengthening but also intriguing to the readers. A very less has been talked about his past and just before the end of the pilgrimage, the guide bids farewell to Paulo and after that Paulo himself continues the journey and succeeds in finding the sword.

Chapter 5 : The Pilgrimage by Paulo Coelho

Paulo Coelho The Pilgrimage 5/13/05 PM Page 2. With the point of his sword, he lightly cut my fore-head. From then on, I was no longer required to remain.

He presents his tale as a true story and I believe it is true that Mr. Coelho walked the Camino but it contains some strong esoteric i. Coelho tells the story of his pilgrimage within a framework tale of trying to attain to a higher level of rank within an esoteric society he calls simply, "The Tradition" in his words: Attaining this new level would be noted with the awarding to him of a sword. When he fails the final test, he is ordered by his fraternity master to perform a "redo" of the final test penance? His name is, Petrus a pseudonym says Mr. Coelho , and he provides instruction to Mr. Coelho along the way in the form of eleven exercises that are recorded in the book such that the reader can try them as well. Coelho uses the same, very readable prose to effectively convey the wisdom and inspiration he experienced, as he used in his latter book, The Alchemist. The big differences are the "true story" baseline of this book and a slightly more martial tone. The latter is seen in the sword as a symbol of his desired rank and as a goal of this pilgrimage. He also refers to the idea of living life effectively as "fighting the good fight," where in The Alchemist he presented the same concept as "finding your personal legend. Like The Alchemist, The Pilgrimage is full of quotable passages. Coelho has a knack for this and it tells me that he is a genuine seeker who has apparently had some major insights in his life. His gift is being able to share them with the world through his writing. While I think he does a better job of that in The Alchemist, there are some passages in The Pilgrimage that are golden. Among the greatest sensations that I have experienced in my life were those I felt on that unforgettable first night on the Road to Santiago. It was cold, despite its being summer, but I could still taste the warmth of the wine that Petrus had brought. I looked up at the sky; the Milky Way spread across it, reflecting the immensity of the Road we would have to travel. This immensity made me very anxious; it created a terrible fear that I would not be able to succeedâ€” that I was too small for this task. The rest of the book is the account of Mr. Coelho learning to measure up, and for that, it is inspiring. Along the way, he converses with angels and demons, fights with a demon-possessed dog, and engages in an ancient Templar rite in a set of ruins in the dead of night. The universe is big and I think we generally are far from understanding who we are and where we are. It is probably the spiritual nature of the Santiago Road that prompts such tellings from its pilgrims.
