

Chapter 1 : Special Collections Overview | Princeton Theological Seminary Library

The Princeton Theology was a tradition of conservative, Christian, Reformed and Presbyterian theology at Princeton Theological Seminary lasting from the founding of that institution in until the s, after which, due to the increasing influence of theological liberalism at the school, the last Princeton theologians left to found.

A theologian concentrates on the rational study of religious history and modern day religious issues. They are the professors of God. Most theologians are found in seminaries -- religious schools -- studying religious texts and passing on what they learn to others. The theologian teaches the religious leader priest, rabbi , and in turn the religious leader teaches the lay person. Theologians, utilizing the tools and methods of biblical research, spend a great deal of their time reading and writing. A theologian is described as someone who studies diverse denominations from many cultures, are biblically and theologically responsible, professionally competent, intellectually astute, and spiritually mature. A theologian strives to raise his or her mind to the contemplation of God and one who seeks to understand what He believes. An Old Testament professor describes his School of Theology this way: Or, you can become a professor, hide yourself away in a university, taking a vow of poverty, and spend your days reading, writing, and teaching. The later choice does involve a career path of sorts. Most young theologians with teaching on their mind, start off as associate professors. After a few years, they may become full professors, and eventually become deans of the religious studies department. In some settings, a theologian can move on to an administrative role, such as principals of private schools or presidents of seminaries. Present and Future As long as there have been religious texts, there have been theologians studying and writing about them. Augustine and Thomas Aquinas are two of the most famous early theologians whose writings are still studied today. Theological study in America has its start in the early 18th century when individual pastors would take one or two students under their tutelage. This was the first institute to focus on the education of theology in a systematic way. Today, there are hundreds of seminary schools and University religious programs that focus on the study of God. The theologian has probably published a couple of books or major research projects and has established clear areas of expertise. Associate professors have more control over their teaching schedules; they are likely to be teaching fewer low-level classes and more classes and seminars in their areas of specialization with older undergraduates and graduate students.

Chapter 2 : PTS Multimedia Page

Founded in , Princeton Theological Seminary prepares women and men to serve as faithful Christian leaders in the church, the academy, and the world.

Art as a Voice for the Church Drawing together a rich collection of artists and authors, the spring issue of Princeton Theological Review is now available. Please note that, due to the volume of exceptional artistic and book review submissions, we were able to publish more online than in the print journal. The foreword to this issue is written by Prof. This edition of the journal features five outstanding research articles: Learning to Read Creation Jonathan M. Platter Pudicitia and Offering: Professors and current students will speak on their experiences as women in the academy, focusing on questions regarding female empowerment. How and when do we feel empowered as women in the academy? What could help us feel empowered? What experiences have been formative along the way? All female-identified members of the PTS community are welcome to attend! You can like, join, and share the event on Facebook using this link or by clicking the image to the right. Art as a Voice for the Church: A Festschrift for Gordon Graham We are excited to announce that the fall issue of Princeton Theological Review has been published. This issue features tributes to Prof. There is also a mini-symposium, comprising three reflections on Prof. The Festschrift also includes three articles, inspired by Prof. Visual Images and Reformed Anxieties: Milliner God, One and Three: Artistic Struggles with the Trinity Gesa E. Thiessen Spring Call for Papers Released Art as a Voice for the Church Graduate students and early-career scholars are invited to submit papers to the spring edition of the Princeton Theological Review. We welcome papers from various disciplinary perspectives theology, philosophy, church history, biblical studies, social sciences, etc. How does theology manifest in all different forms of art painting, poetry, photography, sculpture, music, theater, film, literature, dance, or any other creative endeavors? How does artistic expression give voice to piety, critique, worship, or spiritual struggle? How has art influenced and been influenced by biblical interpretations, theological movements, historical context, or cultural conditions? Why is art such a powerful medium for Christian expression? Submissions have closed for the spring journal. Please look forward to our upcoming release of the journal! This issue features a foreword by Dr. Kenneth Appold, four book reviews, and these articles: Snyder A Visible Invisibility: Almquist-Murray Re-illumination of Minjung Theology: It promotes a free and open exchange of ideas in order to challenge, inform, and equip its audience to become more effective and faithful witnesses to the Lord Jesus Christ. We are committed to engaging theological issues in ways that are grounded in Scripture, centered on Jesus Christ, formed by the work of the Holy Spirit, and mindful of the historic and contemporary stances of the church. All submissions must be original work, should not have been previously published, and will undergo double blind peer-review.
