Chapter 1 : The Rough Guide to Singapore - Rough Guides | Rough Guides

The Rough Guide to Singapore. An in-depth, easy-to-use guide filled with expert advice.

All highlights have a page reference to take you straight into the guide, where you can find out more. Basics 25 Basics Getting there The best prices are found during the low season, from November to February excluding Christmas and New Year when fares are hiked up and seats are at a premium. Budget airline tickets are sold direct by phone or online on a one-way basis; the price of your outward and return leg may differ significantly. Cheap flights also tend to have fixed dates, and are non-changeable and non-refundable. Another possibility is to fly to one of the neighbouring countries and continue your journey overland. EasyJet also fly from London to Sofia, in Bulgaria. Getting there The easiest way to reach Romania is to fly, with several airlines now travelling direct from airports in the UK. There is also one direct flight from the United States, but presently no direct flights from Canada or Australasia. Driving there will involve a journey of some km; an absorbing trip but one best covered slowly. An alternative is to fly into Budapest, in Hungary, from where there are good onward bus and train connections into Romania. It is caused by a build-up in the atmosphere of carbon dioxide and other greenhouse gases, which are emitted by many sources – including planes. Already, flights account for around 3–4 percent of human-induced global warming: Rough Guides regard travel, overall, as a global benefit, and feel strongly that the advantages to developing economies are important, as are the opportunities for greater contact and awareness among peoples. That means giving thought to how often we fly and what we can do to redress the harm that our trips create. Flying and climate change Pretty much every form of motorized travel generates CO₂, but planes are particularly bad offenders, releasing large volumes of greenhouse gases at altitudes where their impact is far more harmful. Flying also allows us to travel much further than we would contemplate doing by road or rail, so the emissions attributable to each passenger become truly shocking. For example, one person taking a return flight between Europe and California produces the equivalent impact of 2. Less harmful planes may evolve but it will be decades before they replace the current fleet – which could be too late for avoiding climate chaos. In the meantime, there are limited options for concerned travellers: Carbon offset schemes Offset schemes run by climatecare. Their websites have simple calculators that let you work out the impact of any flight. Please take the time to visit our website and make your trip climate neutral. Most flights typically require a stop in London, Paris or Frankfurt, continuing onwards from there. By train from the UK Travelling by train is likely to be considerably more expensive than flying, and the shortest Driving to Romania, a distance of km from London, can be a pleasant proposition. Once across the channel see p. Detailed printouts of the route can be obtained from the websites of the AA www.aa.com. There is no shortage of operators in the UK offering package and specialist-interest tours to Romania – from the standard ski and coastal resort holidays to more specialized cultural, hiking and wildlife and conservation trips. For fanatics, there are even Draculathemed tours. In Romania, there are several more agencies offering ready-made and tailormade tours – these are detailed in the relevant parts of the guide. However, it can be a leisurely way of getting to the country if you plan to stop off in other parts of Europe along the way. Eurostar trains depart more or less hourly roughly 6am–7. Arriving in Paris, you take a train to either Munich or Vienna and change there for the next leg to Budapest. In Budapest, you need to change again for the last leg to Bucharest. Tickets are usually valid for two to three months and allow for unlimited stopovers. You can get through-ticketing from stations around Britain from Eurostar, many travel agents and main-line stations. Eurail and country passes. Eurail and European country passes. Rail passes and discounts for unders. Low fares on an extensive selection of scheduled flights and package deals. Friendly, competitive travel agency, offering discounted fares worldwide. Profits are used to support projects in the developing world, especially the promotion of sustainable tourism. One of the best-informed and most efficient agents for independent travellers. STA Travel see opposite. Worldwide specialists in independent travel; also student IDs, travel insurance, car rental, rail passes and more. Good discounts for students and unders. Hikes –

Various offerings including the painted monasteries, Bucharest city breaks plus stag weekends and opera and ballet, and Dracula tours. Trekking and conservation and wildlife tours in the Carpathians, and village folklore and Danube Delta tour. Extensive European tours, some of which incorporate Romania. Tours of the castles and palaces of Transylvania and the Bucovina monasteries, as well as Dracula tours. Multi-country tours and cruises. Wide range of tours and fully customized packages, including Jewish Heritage and Dracula tours, as well as Bucharest city packages. Hiking expeditions throughout the Carpathians. Transylvanian ski and snowboarding holidays, painted monasteries tours and Dracula tours. Getting around Most Romanian towns are easily reached by train, and although it is not the fastest or cleanest system in the world, it is remarkably cheap and reliable. In the absence of a coordinated bus network, maxitaxis minibuses are everywhere, linking many of the larger centres and often providing a more direct and frequent mode of transport than trains. Driving is another attractive proposition, enabling you to visit anywhere you please, and in your own time. Often crowded, trains frequently lack light and water, making long journeys somewhat purgatorial. Those who use the trains regularly, however, often end up very much in sympathy with their rough-and-ready spirit and the generally excellent timekeeping. Moreover, many routes are wonderfully scenic, particularly in Transylvania. In most stations, tickets are now computerized, with all information on one piece of paper. In smaller places, however, your ticket bilet will usually be accompanied by a second piece of card, indicating the service nr. With the exception of Personal trains, tickets are sold at stations only an hour before departure time, and usually at specific windows for each train; these are not always clearly marked, so buying a ticket can lead to a bit of a scrum. Far easier though costing a little extra is to book tickets a day ahead – or seven days for services to the coast during summer – at the local Agentia CFR. Addresses of offices are given in the guide, and in the CFR timetable. Should you fall victim to double-booking, ticket collectors are notoriously corrupt and a small BASIC S There are several types of train: Trains generally conform to the timetables orar trenurilor displayed in stations and CFR offices; arrivals are often on a white board, departures on a yellow one. For key terms, see p. Otherwise, you could check out the web version, w www. In any case, you should always check at the station. Details of main routes are given in the text, and summarized at the end of each chapter. Useful train publications The red-covered Thomas Cook European Timetables details schedules of the main Romanian train services, as well as timings of ferry routes and rail-connecting bus services. The book can be bought online for a ten percent discount at www. Indeed, some people never buy tickets, simply paying off the conductor instead. Inter-Rail passes w www. They come in over and cheaper under versions, and cover 31 countries. For Romania this costs: Inter-Rail passes do not include travel between Britain and the continent, although holders are eligible for discounts on rail travel in Britain and Northern Ireland and crossChannel ferries, as well as reduced rates on the London – Paris Eurostar service. Non-European residents qualify for the Eurail pass w www. The pass allows unlimited travel in eighteen European countries and is available in increments from 15 days to three months. In the countryside, knowing when and where to wait for the bus is a local art form, and on Sundays many regions have no local buses at all. An increasingly popular mode of road transport are minibuses, or maxitaxis. The advantage they have over trains is the frequency and speed with which they can get you to your chosen destination. Moreover, the speed and recklessness with which many drivers go about

getting to their destination leaves a lot to be desired. Maxitaxis often begin and end their journeys from the local bus or train station. Validate them yourself aboard the vehicle, but be prepared to fight your way to the machine through the crush. By car or motorbike Driving in Romania is, on the whole, an attractive proposition. The main roads Drum National or DN are, generally speaking, in good condition.
