A bizarre crash results in the destruction of many rail cars that transported the entourage on to their next engagement. Assessing the situation as hopeless, Fenton Pardee rescues his mules and horse, packs them up, says goodbye to old friends and hits the trail to the openness of Montana. Traveling is rugged even for this experienced mountaineer, but he trudges his way westward in search of fulfillment of his life. He follows Indian trails and game trails as he moves deeper into the wilderness. Fenton faces hardship when his horse dies and he has to travel on foot to lead his three mules, which are carrying his worldly possessions. He walks through the valleys and up mountains leading his pack animals to the camp of Tommy Yellowtail. Tommy was surprised at the arrival of Fenton Pardee and was astonished that he was able to do it without a saddle horse! Admiration starts a new friendship that lasts throughout the years. Tommy was a self-styled horse trader who was trying to survive on his own by selling his collection of horses. Fenton was in need of a horse and it was a perfect opportunity for each of them in this serendipitous meeting. Fenton brought his skill as a hunter, tracker, trader, and chef to the arrangement and Tommy displayed his knowledge of the land. It was a time in which they both gained mutual respect for each other. What makes this story stand out, as being exceptional is the development of a relationship between an Indian and cowboy! Tommy and Fenton each recognize that in order to succeed they will need to become civilized and live in society rather than being out in the wilderness living off the land. Their time in the wilderness still exists, but it is under different circumstances. They become guides to city folk who want to experience the outdoor conditions, but with the thoughtful guidance of experienced packers. Because they are so responsible, their business thrives and they acquire land. There are many opportunities which open doors for Fenton to become a landowner. The exploration of these events is another part of the compelling interest in this story. Fenton has romantic interests that lead to his marrying Cody Jo. Tommy also has romantic interests, though he does not marry. After all, this did take place partially during the period of prohibition. William Wyman easily describes a sense of reality since his background is similar to that of the same style as his character. Even with this wild side, Wyman has been a college instructor in literature and dean at Colby College and Stanford University. This novel is highly recommended and is a five star book.
