

Chapter 1 : The Whole Christ - Tim Challies

In this brief service, we have the whole Christian life neatly summed up. And as we progress through such a service, we trust that the downcast are lifted up and encouraged, that the apathetic are stirred and challenged, that the weary are fed and revived.

I was studying up on his works when I ran across an offer he makes on his website to do print interviews for your book, film, album, resource, other product or service. After about a month I emailed and asked if she had anymore questions. So I re-sent copies of our email exchange. And why do you suppose this is a problem? This of course in contrast to standard church teaching ignoring the New Covenant and promoting a mystical buddy from out of town who allows any behavior one chooses. Can Frank do what he wants? Does he have to lie? This causes many Christians to live with a headache of guilt and a constant feeling that they are never measuring up. So we can live the way we want, and God is okay with it because He understands that we are mere mortals. You see what he does? Watchman Nee is very mystical and spiritualizes the Bible text nearly out of existence sometimes. He has influenced a lot of people, including many in Calvary Chapel and evidently Mr. Many organizations have steered away from the Bible as they tried to steer away from what is wrong in the Church. Viola is repeating the same mistakes with updated language and a nice book cover. The New Covenant is the Law written on a heart of flesh. What is new is the heart that will do what God says. The first three thousand and the next 5, converts to following the Christ were all Law-following Jews. Paul says what counts is doing what God says. For neither circumcision counts for anything nor uncircumcision, but keeping the commandments of God. They did part, but they did not do what He said with a whole heart of flesh in love and the Spirit. Another thing Frank has wrong is his definition of the gospel. Sinai the gospel was preached to them just as to us. For good news came to us just as to them, but the message they heard did not benefit them, because they were not united by faith with those who listened. What is hard is humbling ourselves and doing what God says all the time no matter what. Viola is another in a long line of fancy charlatans with smooth dialogue and a pitch that would charm angels, relentlessly marketing his misleading merchandise. Unless of course he just wants to sell books. If the cross is front and center, then His body and blood will be our food.

Every now and again a scholarly book will show up and a lot of people will get really excited about it. It will be a book that, under normal circumstances, would be known among only the scholars. And yet this one will be released with accolades assuring the non-scholarly readers like me! It has received those accolades and, just like they say, it is definitely worth the read. Sponsor Become a Patron The Whole Christ begins more than years ago with a theological controversy that erupted in a small Scottish town—hardly the stuff of your average Christian book. The core issue was whether or not a person must first forsake his sins in order to come to Christ. This syllogism describing their view may bring clarity: The saving grace of God in Christ is given to the elect alone. The elect are known by the forsaking of sin. Therefore forsaking sin is a prerequisite for saving grace. This puts the cart before the horse. It stands the gospel on its head so that the proclamation of the gospel, with the call to faith in Christ, becomes conditional on something in the hearer. The gospel thus became a message of grace for the credentialed, not an offer of Christ to all with the promise of justification to the ungodly who believes. And, as it happens, we, too, are struggling with issues related to legalism and antinomianism. That makes his book perfectly timed and a valuable contribution to the discussion about the role of the law, the role of obedience, in the Christian life. And this is where his book takes off. Now Ferguson is going far beyond church history and bringing clarity to the way we are to live the Christian life. He is moving beyond history to do the work of a pastor. He carefully discusses how we become Christians, how we live as Christians, and how we can have assurance that we are Christians. He or she becomes an antinomian in reaction. But this implies only a different view of law, not a more biblical one. I suspect I would need to read it through once or twice more to have an advanced grasp of its subject matter. I would like to go back and do that very thing. Ordinarily, we might assign a book like this to the bookshelves of the scholars and enthusiasts of church history. But The Whole Christ has too much to say to us to allow that to happen. It speaks too clearly and too urgently to issues that are every bit important to us as they were in the seventeenth century.

Chapter 4 : The Whole Christ – “The Best Theological Book in plus years!” – www.nxgvision.com

The Whole Christ: Legalism, Antinomianism, and Gospel Assurance – “Why the Marrow Controversy Still Matters” By Sinclair B. Ferguson, Foreword by Timothy J. Keller Since the days of the early church, Christians have wrestled with the relationship between law and gospel.

It took me a few days to get round to reading it. It really is that good. It is a life changing book which I times I just had to put down, lift my hands and praise the Lord for his wonder and beauty. The foreword is by Tim Keller who obviously shares my enthusiasm. Suffice it to know that it is centred in Auchterarder, in Fife, some years ago. It centred round a book, *The Marrow of Modern Divinity*, published in and This was published in two parts, firstly a series of dialogues on theological issues and secondly on the Ten Commandments. The General Assembly of the Church of Scotland accused it of being antinomian – “against the law. Issues of how the law relates to faith and grace, how we can be assured of our faith, are as relevant today as they were then. Incidentally the footnotes in this book, almost at the bottom of every page are not academic irrelevancies, but worth the price of the book alone! Here are some of the lessons I learned. Christ is dead for him! New Testament Christians did not think of themselves as Christians! They saw themselves as being in Christ. When you see that Christ and his benefits are inseparable the primary question for the preacher is how do I preach Christ himself, not how do I offer this benefits? And for the hearer it is how do I get into Christ? Not how can I get these benefits into my life? The gospel is not believe because Christ died for you, rather it is believe because Christ is able to save. He himself is the gospel. And then this wonderful thought. God does not love us because Christ died for us. Christ died for us because God loves us. Because it leads to restriction in the heart of the preacher that matches the restriction he sees in the heart of God! In fact it destroys the law because legalism is law without God. It is a distortion of the gospel and therefore of the character of God and actually then becomes a distortion of the law. In essence it is any teaching that diminishes or distorts the generous love of God and the full freeness of his grace. There is of course, a genuine progress in understanding that marks maturity. Is that what grace is? But underneath lies a failure to understand grace and ultimately to understand God. True, his love for me is not based on my qualification or my preparation. But it is misleading to say that God accepts us the way we are. Rather he accepts us despite the way we are. Nor does he mean to leave us the way he found us, but to transform us into the likeness of his son. Without that transformation and new conformity of life we do not have any evidence we were ever his in the first place. It is the same medicine the gospel prescribes for antinomianism: It is not merely a matter of the head. It is a matter of the heart. Antinomianism may be couched in doctrinally and theological terms, but it both betrays and masks the hearts distaste for absolute divine obligation, or duty. That is why the doctrinal explanation is only part of the battle. We are grappling with something much more elusive, the spirit of an individual, an instinct, a simple temperamental bent, a subtle divorce of duty and delight. This requires diligent and loving pastoral care and especially faithful, union with Christ, full unfolding of the word of God so that the gospel dissolves the stubborn legality in our spirits, What is the relationship of love and law? Love empowers the engine; law guides the direction. They are mutually interdependent. The notion that love can operate apart from law is a figment of the imagination. It is not only bad theology; it is poor psychology. It has to borrow from law to give eyes to love. He or she also sees it as a rule of life; indeed, sees with Calvin that Christ is the life of the law because without Christ there is no life in the law. This is not – “as the antinomians normally inferior – “bondage. The Christian rejoices therefore in the laws depth. What is real assurance? At least, it leads to a lack of true assurance although, alas, not necessarily to a lack of self-assurance. Where there is no actual obedience to Christ, there will be no evidence of present love for him as saviour. We view him and, if we are preachers, we may also present him in a restricted, less bountiful way. A spirit of bondage, rather than the enjoyment of assurance, is the end result. Their assurance of salvation produces boldness in witness; eagerness and intimacy in prayer; poise in character in the face of trial, danger and opposition; and joy in worship. The lack of these is also evidence of a lack of the assurance that produces them. Rather than breed presumption or antinomianism, assurance produces true humility. Christian assurance is not self-assurance and self-confidence. It is the

reverse: When these are the hallmarks of our lives, then the grace of the Lord Jesus Christ has come home to us in full measure. And that, surely, is one of the great needs of our times. As a result he read Romans. Pick up *The Whole Christ*. Read *The Whole Christ*. Receive *The Whole Christ*. Know *The Whole Christ* and He will set you free.
