Serial vigilantes repeatedly take the law into their own hands, establishing and imposing their own moral standards, usually by force. The book examines the connections between the serial vigilante and the pulp hero that preceded him and how the serial vigilante has influenced a variety of tough guys, private eyes, spies and cops in different media. A complete bibliography for each series is featured. University of Illinois Press

Format Available: In this deeply researched prequel to his study *Rough Justice: Lynching and American Society*, Michael J. Pfeifer analyzes the foundations of lynching in American social history. Scrutinizing the vigilante movements and lynching violence that occurred in the middle decades of the nineteenth century on the Southern, Midwestern, and far Western frontiers, *The Roots of Rough Justice: Origins of American Lynching* offers new insights into collective violence in the pre-Civil War era. Pfeifer examines the antecedents of American lynching in an early modern Anglo-European folk and legal heritage. He addresses the transformation of ideas and practices of social ordering, law, and collective violence in the American colonies, the early American Republic, and especially the decades before and immediately after the American Civil War. His trenchant and concise analysis anchors the first book to consider the crucial emergence of the practice of lynching of slaves in antebellum America. Pfeifer also leads the way in analyzing the history of American lynching in a global context, from the early modern British Atlantic to the legal status of collective violence in contemporary Latin America and sub-Saharan Africa. Seamlessly melding source material with apt historical examples, *The Roots of Rough Justice* tackles the emergence of not only the rhetoric surrounding lynching, but its practice and ideology. Arguing that the origins of lynching cannot be restricted to any particular region, Pfeifer shows how the national and transatlantic context is essential for understanding how whites used mob violence to enforce the racial and class hierarchies across the United States. Format Available: On the frontier, says conventional wisdom, a structured society did not exist and social control was largely absent; law enforcement and the criminal justice system had limited, if any, influence; and danger--both from man and from the elements--was ever present. This view of the frontier is projected by motion pictures, television, popular literature, and most scholarly histories. But was the frontier really all that violent? What was the nature of the violence that did occur? Were frontier towns more violent than cities in the East? Has America inherited a violent way of life from the frontier? Was the frontier more violent than the United States is today? This book attempts to answer these questions and others about violence and lawlessness on the frontier and do so in a new way. Whereas most authors have drawn their conclusions about frontier violence from the exploits of a few notorious badmen and outlaws and from some of the more famous incidents and conflicts, I have chosen to focus on two towns that I think were typical of the frontier--the mining frontier specifically--and to investigate all forms of violence and lawlessness that occurred in and around those towns. Nevin Yildirim YouTube The Gulabi gang, or "the pink gang" as in direct translation from Hindi, is a group of women who basically take justice in their own hands. It follows the tale of a woman who loses her husband and daughter to a brutal attack. She goes on a deadly quest to deliver her own form of justice. But lesser known are the stories about real-life female vigilantes: The women who fought "and continue to fight" back against oppressions, abuse, violence and more. She went on to destroy three cities and kill nearly 80, people. Every woman in the Red Brigade has been a victim of sexual assault; some of the young girls were even raped by their own family members. Most of these crimes have gone unpunished, so the victim has been left to suffer in silence and shame. But the Red Brigade allows the women to act and to fight back. They teach themselves self-defense and discuss topics like sexual violence towards women. And when they patrol the streets and find offending men, they either publicly humiliate them or sometimes resort to physical violence. As passenger train Number Four was rounding a curve at full speed, ten miles out of this city, on the morning of October 4, and at a point where a deep cut shut out the view ahead, the engineer saw some one, man or boy, he could not well make out which, running down the track toward the train.

New York City Subway crime and Crime in New York City Bernhard Goetz stated that, while transporting electronic equipment in , he was attacked in the Canal Street subway station by three youths in an attempted robbery. Car , on which the shooting occurred, in operation on the 4 service. Canty was across the aisle from him, lying on the long bench just to the right of the door. Cabey did not testify and Allen took the Fifth Amendment. Sequence of shots[edit] Sources differ in reporting the sequence of shots fired, and whether Cabey was shot once or twice. The following are four versions from significant or reliable sources describing the sequence of shots: Cabey shot on the fifth shot[edit] "Speed is everything," Goetz said in a videotaped statement made after he surrendered nine days later. He then stood, stepped clear of Canty, drew his revolver, turned back to Canty, and fired four shots, one at each man, then fired a fifth shot. Canty was shot first, then Allen, then Ramseur, then Cabey. Goetz , the New York Court of Appeals summarized the incident: It appears from the evidence before the Grand Jury that Canty approached Goetz, possibly with Allen beside him, and stated "Give me five dollars. Goetz responded by standing up, pulling out his handgun, and firing four shots in rapid succession. After Goetz briefly surveyed the train scene around him, he fired another shot at Cabey, who then was sitting on the end bench of the car. One bullet missed, fragmenting on the steel cab wall behind Cabey. The missed shot would also be the basis of a charge of reckless endangerment of other passengers. I decided to shoot as many as I could as quickly as I could. I did a fast draw, and shot with one hand my right , pulling the trigger prior to the gun being aligned on the targets. All actual shots plus my draw time occurred easily within 1. This is not as difficult to do as some might think, and occasionally I give a description of the technique along with a re-enactment. The first shot hit Canty in the center of the chest. After the first shot my vision changed and I lost my sense of hearing. The second shot hit lightning fast Barry Allen in the upper rear shoulder as he was ducking later the bullet was removed from his arm. The third shot hit the subway wall just in front of Cabey; the fourth shot hit Cabey in the left side severing his spinal cord and rendering him paraplegic. I immediately looked at the first two to make sure they were "taken care of," and then attempted to shoot Cabey again in the stomach, but the gun was empty. Cabey, who was briefly standing prior to the shooting, was sitting on the subway bench during all attempted shots. The others were standing. Shortly after the shooting my vision and hearing returned to normal. At this, Goetz unzipped his jacket the rest of the way, drew the gun, assumed a combat stance gripping the revolver with both hands, and shot Canty through the center of his body. He then turned to shoot Allen who had tried to flee, hitting him in the back, and then shot Ramseur, wounding him in the chest and arm. According to Goetz he then approached Cabey and shot him on the ground; however, another witness disputed that Goetz shot Cabey a second time. According to the prosecution, the fourth shot missed; then Goetz shot a seated Cabey at point-blank range with the fifth. The defense theory of how Cabey ended up in the seat was that he was standing when hit by the fourth shot, then collapsed into the seat due to the lurching and swaying of the train; with the fifth shot being the shot that missed. He has subsequently denied on several occasions making the statement. Goetz talked to them to make sure they were not injured, then was approached by the conductor of the train. Goetz stated, "They tried to rob me. He drove around New England for several days, registering at motels under various names and paying in cash. Your mind is functioning. You are so hyped up. Your vision actually changes. Your field of view changes. What you are capable of changes. You are under adrenaline, a drug called adrenaline. And you respond very quickly, and you think very quickly. You think, you analyze, and you act. And in any situation, you just have to think more quickly than your opposition. Speed is very important. Goetz returned to New York City on December 30, turned in the car, picked up some clothing and business papers at his apartment, rented another car and drove back to New England. Shortly after noon the next day, he walked into the Concord, New Hampshire , police headquarters and told the officer on duty, "I am the person they are seeking

in New York. After an interview that lasted over an hour, a Concord detective asked Goetz to consent to making an audiotaped statement. Goetz agreed, and a two-hour statement was recorded. That evening, New York City detectives and an assistant district attorney arrived in Concord, and Goetz submitted to a two-hour videotaped interview. Both interviews were eventually played back for the grand juries, the criminal trial, and a civil trial years later. When the audiotape was first played in open court, Goetz was described by The New York Times as "confused and emotional, alternately horrified by and defensive about his actions, and obsessed with justifying them. He called New York City "lawless" and expressed contempt for its justice system, calling it a "joke," a "sham," and "a disgrace". Goetz said that when the four men he shot surrounded him on the train, he feared being "beaten to a pulp" as well as being robbed. My problem was I ran out of bullets. Baker , argued that this and other extreme statements by Goetz were the product of emotion and an overactive imagination. He was held in protective custody at the Rikers Island prison hospital. Goetz alluded to these reports in a December interview on the Opie and Anthony radio show, saying that the first shot he fired that afternoon had been unusually loud in part because it was the first shot fired by the small-frame. During his subsequent statement to the police, Goetz expressed a belief that none of the young men had been armed. For the German actor, see Bernhard Goetzke.

Surely those flamboyantly evil criminals have counterparts on the right side of the law: Men of great courage and strength of conviction willing to plunge alone into the criminal underworld, handing out justice like some kind of a man-shaped justice dispenser. Men who consider a COPS marathon intensive law enforcement training and are always ready to take to the streets with whatever weapons they found in their garage. They may not make us feel any safer, but they certainly restore our faith in crazy. Advertisement 6 Jonathan "Jack" Idema Is the name familiar? If not, it damn well should be. It takes quite a set of plums to do the things Jack Idema has done. Formed his own counter-terrorism training company? Secretly invaded Afghanistan under the guise of humanitarian aid, but with the actual and completed purpose of capturing suspected terrorists? Idema is kind of a badass. He invaded Afghanistan and captured a dude, sure. But when he presented the prisoner to US forces, they released the frightened presumably bearded man a week later. Idema became so entrenched in his own bullshit that he was finally jailed for entering the country illegally, running a private prison, and torturing his inmates. Oh, did we not mention the prison thing? Idema flat-out refused to leave his horrible Afghani prison cell. At that time homosexuals had even less legal protection than blacks and we know how much help they were getting so verbally abusing or even physically assaulting a gay man was considered a minor offense. But in one city, that offense meant you were about to get the shit kicked out of you by a gang of gay vigilantes. The Reverend Ray Broshears, who, as an openly gay Pentecostal Evangelist preacher has to be the man with the least probable job in fucking history formed the group after getting his own ass kicked for being gay and in public. The group was renowned for its ability to appear out of nowhere or a large van , and promptly begin flailing ass on anyone who represented a threat to individuals, or the community at large. They also had a form of immunity. Interestingly, this all-gay group actually only has the second-gayest name on our list They were originally founded by a mustachioed man-mountain named Nathaniel Kinney to counteract the wildness of the Old West, a job left laughably unfinished by Will Smith. But then they inevitably realized that if they were the only ones administering justice, they could pretty much administer it in whatever way they chose. Namely, killing the shit out of everything. The mustache does not hide his secret smile. It hides another, angrier mustache. Eventually, enough hell was raised that people began to speak out against the Bald Knobbers. An anti-Bald Knobber movement set about ridding the countryside of their phallus-named tormentors, and actually carried out the planned assassination of Mr. Pouty Mustache up there. The assassin himself walked away from the trial, acquitted for the murder by reason of self-defense. As of press time, neither the Hebrew Hammer nor the Zohan could be reached for comment, leading the Cracked research team to believe that both are stupid exploitative fictional caricatures and not real people. Continue Reading Below Advertisement So what could possibly go wrong when a group composed entirely of members of a single religion or ethnicity decide to take vengeance on bad guys? Meet Andrew Charles , a young black man who took an unwarranted beating at the hands of the Shmira. That caused people to start to murmur all sorts of crazy things about "racism" and "gang violence" and "Adam Sandler used to be a lot funnier. Add in the fact that Charles was the son of an NYPD sergeant, and that after the beating the Shmira were presumably the only people who would protect those Jews, and you could say they achieved the exact opposite of what they set out to accomplish. Unless their secret goal was to teach everyone an important lesson about the value of the whole "due process" thing. For instance, in the Mexican community of San Juan Ixtayopan, it means "flip over a Ford Focus, drag out the suspected child-stalkers inside, and burn them alive. The only real problem, as we see it, is that the perverts they burnt to a crisp were in fact Mexican Federal Agents. Mexico is not the most pleasant place to live, apparently. The residents of San Juan Unpronounceable grew weary of the violence and baby raping and decided to take matters into their own hands.
