*Origins of UFOs, extraterrestrials and ultraterrestrials, composite human nature, reality and consciousness, dimensions of true time and the holographic universe revealed in seventy years of contact are focused through the eyes of an ordinary woman.*

The Federation of Damanhur is noted all over the world for its extraordinary experiments, that often border on Science fiction. Uniting spirituality, art and technology, Damanhurian research groups often manage to conduct experiments that contemporary Science still considers impossible. A few years ago the prestigious monthly magazine *Kindred Spirit* published an exclusive article on our alleged experiments of traveling in time and since then the news has spread all over the world. Here we present an entire site dedicated to these incredible and extraordinary experiments which have allowed us a better understanding of the true nature of our universe. We present time travel as true and possible: Reports and accounts that appear Science fiction, beyond the laws of physics as we know them. Accounts of moving episodes that you can believe have really happened or consider just a fantasy. What is important is that they stimulate your desire to look beyond appearances and elaborate new ideas and ask new questions. Courses are available for everyone who wishes to research into the great mysteries of the universe with us. Damanhur wants to be an innovative element in society to give strength to suggestions, to ideas, that others will know how to use in such a way as to render possible in the new millennium, things that are unimaginable today. To do so it is necessary to change the way of thinking. Today people still think as if we were in the s, we are however in a new century, a new millennium even. Perhaps Damanhur, in succeeding to unite the spiritual with the technological and the material can suggest appropriate answers for humanity to also expand into space, the universe and time. To travel in time a great deal of physical and mental preparation is necessary so that the traveler is perfectly able to calmly and safely confront all the phases " and the unforeseen events " that traveling in time inevitably implies. Just like the astronauts that travel in the space stations that orbit the Earth, the Damanhurian Temponauts prepare for years in order to acquire the necessary theoretical and practical knowledge and indispensable mental agility and readiness. The Cabin is a complex structure, cylindrical in shape circumscribed by metal bars in which the Temponaut enters in order to conduct the experiment. The Cabin allows the common laws of known physics to be exceeded, permitting the dematerialization and materialization of a person and their transportation into another space-time. At the basis of the functioning of the Cabin are complex selfic instruments called Spheroselfs, consisting of a selfic part and a small sphere containing alchemical liquids. The Spheroselfs activate and guide the operations and functions of the Cabin, storing all the codes, information and references necessary for the journey in time. The complex control instruments having been activated externally, at a certain point the Time Door appears to the time traveler, usually presenting as a huge dark colored comma. The Temponaut following the instructions received during training slips through the door and finds him or herself in another part of the fabric of time. For the traveler the sequence of individual time has not changed, just as one does not age differently when traveling from London to New York. First the traveler is in London, then on the plane and finally arrives at the destination. The complexity of the flight is in the equipment that allows the traveler to move from one place to another and the physical laws that allow it. Exactly the same thing happens as regards the functioning of a transfer Cabin, which is technically ingenious and extremely complex. The principles on which the dematerialization is based are those explained by Esoteric Physics. The Temponauts who travel physically literally disappear from one end and appear at the other and the mass that is dissolved is compensated for by the movement of an equivalent mass of water. This happens in order to respect the law which states nothing is created and nothing destroyed. To understand how a body can dematerialize it is enough to think of what happens with a cassette tape. The bobbin winds the tape onto one side and it disappears on the other. The traveler finds him or herself in another time dimension, perhaps in the same geographical location but several centuries or millennia earlier. Traveling physically is by no means easy because the body has its own historical period and has difficulty adapting to the environment of a different epoch where it risks carrying unknown diseases of that time. physical Temponaut also has to undergo rigorous training from this point of view. In addition it is not easy to achieve the dematerialization of a body and it is even more complicated to guarantee its perfect reintegration on re-entry. ## Chapter 2 : Time Travelers I have Met by Dr. Bruce Goldberg

*Time Travelers From Atlantis: The Collected Essays Of Ida M. Kannenberg by Kannenberg, Ida M. In , UFO occupants abducted Kannenberg and implanted her with a device in preparation for making contact with her years later.*

Dinoids from the Bellatrix system in the Constellation of Orion and Reptoid colonies from the Constellation of Sagittarius arrived later to inhabit the Earth. The Reptoid and Dinoids allowed a mammalian species to evolve to sentience. These mammals were called the pre-cataceans. The pre-cataceans provided food for all 3 colonies in exchange for technology which in turn improved their production rate further. These 3 civilizations co-existed in harmony trading among one another for over 8 million years. The pre-cataceans developed their spiritual side, such as psychic abilities, extensively. Being given permission for the Earth Spiritual Hierarchies, the Pre-Cataceans decided to implode their fusion reactors located in the Ural Mountain Range. The Pre-cataceans divided into two groups. One group evacuated out of our solar system to the constellations of Pegasus and Cetus and the other group altered themselves physically so that they could enter the oceans and find haven. This group is now our present day cataceans such as the dolphins and whales. The entire transformation process occurred over a period of 4 million years. They searched the galaxy for 2 to 3 million years before finding what they were looking for. They found, on the fourth planet of the Vega system , a primitive aquatic species that was starting to emerge from the oceans. This species had creation myths, a language, and a hunting and gathering culture. The Spiritual Hierarchies of the Vega system were then asked if they would permit this species to be vastly altered genetically to accelerate their evolution so that they may become a guardian species. The Vega Spiritual Hierarchies agreed. So, the traces of the first humans came from the Vega Star System. Their technology improved very quickly, and once they had developed star travel technology they started to migrate into nearby star systems for a period of 2. During this time the Galactic Federation was formed, Sirius B was colonized and Earth was selected for seeding. Later Mars and Venus were colonized and the Hybornea colony was founded on Earth. Hyborean Earth, Mars and Venus were victim to these attacks and the Dinoids and Reptoids gained control over the solar system for a period of approximately 80, years. In response to this the Galactic Federation planned a counterattack to reintroduce humans into this system. The remains of the planet Maldek are what we can now see as the asteroid belt. It is what we know today as Lemuria. Over the next , years the Lemurians spread across the face of the planet. The Atlanteans began to acquire a feeling of uniqueness about their culture and wanted to eliminate Lemuria so that they could become the mother country. The Atlanteans began forming alliances with renegade Pleidans and Alpha Centaurians which had Hierarchical systems of government. This destroyed much of Lemuria, but this also resulted in many pressures being inflicted upon the tectonic plates: Today, they form what is known as the Kingdom of Agartha or Shamballah. These kings together formed the governing council of Atlantis. Autocracy was thus born and was in full control enforcing a period of peace and stability. Throughout the years there were many wars among the various empires due to underground movements of people that wanted to have the Lemurian "philosophy" back in place i. These wars led to vast destruction. The breakdown of the Firmament also resulted in the polar icecaps freezing and also the many climatic variations we have today to form. Unfortunately many of the survivors were the mutant humans that had been genetically altered by the Atlanteans into a much lower state of consciousness. Also, the fact that the firmament was now no longer in existence resulted in the DNA and thus consciousness breaking down even further. A few different renegades from Pleides, Alpha and Beta Centauri came to different places on Earth after the Flood, seeing it as an opportune time to establish their own desired ideologies and also be seen as "godlike" and thus revered. Being already genetically altered, the surviving humans were therefore easily controlled by these renegades. This concept of worshipping an elite has continued through to modern times. Culture would rise against culture in wars claiming that the elite they themselves worshipped were superior to the elite of the opposing faction. Suddenly, a new paradigm was adopted that favored lack, limitation, power and division. You lost your connection to your history and to a sacred set of beliefs, which the Anunnaki and their carefully chosen minions replaced with a new conception. These acts are recorded in the ancient tablets of Sumer, in the steles

of ancient India and in carvings found throughout Europe, Australia, Oceania, Asia and the Americas. Now, as your consciousness expands more quickly, you are coming to see these tales for the elaborate fiction they truly are. Your origins are not of this world, but are extraterrestrial in nature, and are to be found on a planet that circles the star Vega in the Lyra constellation. Yet, you have achieved more than to travel a mere 26 Light Years to reach your present home. Many millions of years ago, you became part of a vast rebellion by the Light against the dark in this galaxy. Eventually, this rebellion led to the formation of the Galactic Federation of Light, over 4 million years ago. Of these, Sirius is most sacred and the place where the Great Blue Lodge of Creation has chosen to enter this galaxy. Originally, it was defended by a Lion people who decided to settle only on two planets in the Sirius A star system. The Sirian star system is filled with the great energy bestowed by the Great Blue Lodge. This energy obscures its exact configuration. The system is an anomaly. Sirius A and its companions seem to be what they are not. Thus, to your scientists, they appear, incorrectly, to be exceedingly dense. This seeming density is due to the energy exerted upon them by the Blue Light of Creation. From within this Light, Sirius gathers up the great energy and disperses it to the galaxy. This energy also transforms the way in which those who dwell here see themselves and their sacred mission. It has led Sirius to assist in spreading the energy of its galactic society to a multitude of solar systems throughout this galaxy. Your ancient Lemurian civilization brought them to Earth and they were anchored here by its descendants - the Inner Earth realm known as Agartha Shambala. The third and fourth planets in our system circle a blueish-white star. Its light forms a pattern in our atmosphere that creates a red-orange sky filled with the rare blueish cloud. Most of our vegetation is quite purple-blue in color. Infrequently, it is green, orange or brown. We dwell in this land of lush forests, huge mountains, enormous prairies and very high mountains. Our main cities are located some 50 to miles 80 to kilometers beneath all this beauty. On the surface are only main temple sites. The dimensions of the grand temple of Atar are astonishing. Its main hall contains columns, each exactly perdums or feet Its roof is covered with a special lacework of pure gold to let in the majesty of our Sun. Its floor tiles are inscribed with the text of the Great Book of Understanding, in which the Creator bestowed upon humanity the blueprint for physicality and the wisdom to fulfill its potential. The main hall is most sacred. The remainder of the temple complex is designed to support and accommodate the rituals practiced within. The temple is situated on a huge cliff that looks out over our one great sea. The energy that emanates from it each day forms a ring of golden Light around it. At night, when viewed from the ocean, this Light seems like a strong beacon signalling to a ship far out at sea. The beauty of our world is sacred. Soon, the limitless glories of your world will be apparent once again. This water-world of yours is utterly exquisite. Soon, most of its deserts and the fierce heat that envelops them will be transformed. Ice caps will vanish and the wonders of your most southern continent will be revealed. As you help to return your world to its original, pristine condition, recall what we have ever so briefly told you about our home. Like the two water planets of Akonowai, your solar system embodies much that is sacred. In a short time, Mars will bloom once more, and the desolation on Venus will metamorphose into a land of abundant oceans that teem with life. Such a destiny awaits you and is truly not as distant as you may imagine. This realm is shifting in accordance with the sacred decrees of the divine plan which have established a timetable for your transformation into fully conscious Beings. As a result of this process, we have come from all sectors of this galaxy to form your first contact team. We are totally dedicated to completion of the mission that Heaven has entrusted to us. Right now, dear Hearts, when much is unfolding in your world, you must continue to focus closely upon your sacred intentions. Be firm in your commitment. Know that your victory is inevitable. Know also that you are not alone. Heaven has sent many to assist you. They have come from this and many nearby galaxies, and from the vast Orders and Life-streams of Heaven. The will of the divine will manifest upon this realm, dear Ones. Feel it in your heart and remain united in your intentions. Today, we have examined the elements that are transforming your reality. In doing so, we have given you a brief glimpse of our beautiful realm, which we all deeply Love. We in this most sacred organization of Light salute you and fully support what you are actively accomplishing.

Time Travelers I Have Met: Time travel will be discovered in approximately the year By Dr. Bruce Goldberg Time travel will be discovered in approximately the year by a man named Taatos. He is the Hermes of ancient Egypt and the very first chrononaut time traveler. Prior to his actually traveling back in time, holographic images were sent into the past. This is why the ancient Egyptians, Greeks, Romans, etc. We can summarize the characteristics of time travelers as follows: They have mastered hyperspace travel between dimension, and can move through walls and solid objects. By existing in the fifth dimension, they can observe us and remain invisible. Genetic manipulation of our chromosomes is a routine procedure for them. They have greatly speeded up our rate of evolution. The origin of these chrononauts is Earth from 1, to 3, years in the future. Their main purpose is to accelerate our spiritual growth. It is simply a matter of using the Fifth Dimensional Travel exercise that I present on this website. The first time traveler I met in hyperspace the fifth dimension was a pure human calling himself Traksa. He lives in the thirty-sixth century on Earth when time travel is manifested by way of teleportation. This means that Traksa can beam his physical body back to our century without requiring a spacecraft. Time travelers use names that represent their current mission. Janine Cooper is an artist and a friend of mine. Janine got her inspiration from her own subconscious, not from photos or movies. Traksa told me that he telepathically directed her in each of the portraits, especially this one -- Traksa himself. The actual photographs of Traksa and the three other time travelers groups presented in my book Time Travelers From Our Future. Traksa has told me that there are many times travelers around today. They do not hold public office or place themselves in positions of attention. Their function is to be in the background, spending most of their time in the fifth dimension so we cannot see them. In order for us to be able to see a time traveler, they must slow down their frequency vibrational rate FVR and enter our three-dimensional world. It is only then our physical eyes will be able to see them. Here are some of the other chrononauts I have met in hyperspace fifth dimensions: He was active in Mu Lemuria and Atlantis and is from the 40th Century. His name stands for "tachyon. They follow us from lifetime to lifetime, tracing our souls back to previous lives and monitoring our spiritual unfolding. Their ultimate purpose is to facilitate the perfection of the human soul to allow for ascension and the end of the karmic cycle. There are also future problems - wars, pollution, infertility - in this and parallel universes that they are trying to avert by assisting us now in our spiritual progress. As we grow spiritually, so do they. They are us in the future. Try my Fifth Dimension Travel exercise or, CD tapes and feel free to contact me to share your experiences with meeting your own time traveler.

Booked 2 rooms and after long day of flight and roaming around resort came back to room and as soon as my son who is 22 goes under his quilt Soooo disgusted about it. Is it safe to drink coffee or use towels? We are still here for 4 nights but I am very very mad. I went to main lobby to talk to manager and GUESS what this resort is run without manager which was not here yet and other one already left. I give this resort ZERO! Not happy after paying tons of money and booked 2 rooms. Who else can I contact??? July 9, This is truly a beautiful amazing resort. We have been traveling to the Atlantis for 10 years. I hate to hear it put down. They have wonderful programs for children and youth and we have had the pleasure of getting to know several staff due to our frequent visits. Yes, check your bill as you would any hotel. You can check it daily on your TV and if there is a discrepancy go and get it adjusted. We love this property and the staff and have stayed with them in all different accommodations 10 times. As for the person complaining about the size of the hole in the water slide tube They are standard tubes Maybe they should be looking at their size instead and wondering if they need to do a little adjusting! All smiles aside, we love this resort! July 1, I was there, I had to ID her body. Sister died in her room about a month and a half ago at the Atlantis Hotel, Nassau. She booked tickets the day before she vanished, to swim with the dolphins, she was extremely excited about this voice messages etc , the next day she did not show up for the booking swim with the dolphins, shallow water experience made less than 24hrs earlier, subsequently she was found dead Take what you wish from the above I may not elaborate June 29, Watch out! I stood in line at the front desk to have the Chopstix charge removed and the folio was corrected and I caught my plane home. I called and spoke with "Gabriella" who claims they will look into it. I called my credit card company and they are putting a stop to it. Apparently, Atlantis Resort is famous for this behavior! April 12, Arriving at the resort we learned that our meal plan which we paid almost We opted out for a refund which we were told they would, and never got. The rooms were dirty, smelly and so was the hallway of the "newly remodeled" Coral Tower. The service there is a joke! Most of the employees are rude, and no help at all. The food was ok but extremely overpriced! I will not be going back! I currently have disputes into my bank and credit card company from this resort. I received an amended bill with an agreed upon total. After I left the resort the amount they agreed to remove from my final bill were charged without my authorization to my card, this is fraud. Then they spot you looking for chairs and offer the ones they put their belongings in for money, this is extortion. The rooms are dated and in desperate need of repair. I was screamed at in front of my son on our first day there by an attendant at a pool area with a pay to sit area. We walked into the area and the attendant started screaming, "This is private, you have to pay to sit here. I was called a liar twice by staff when I tried to say an order was incorrect. They catch you by not giving you an itemized receipt of what you order at the bars, coffee shops, restaurants and pool eating places. You then pay for it and wait for them to deliver what you ordered. If they could have been changed we would have left on Monday after just checking in on Saturday late afternoon. Buyer beware and avoid this trap like the plague.

Goldberg Breaks his Silence on a Pending Question! Bruce Goldberg a Time Traveler? I stated several times on the air that I will neither confirm nor deny that rumor. Here are additional clues as to whether or not my origin is from the future. If I am a time traveler, I most definitely would be from the 35th century when teleportation is developed as a means of time travel. Teleportation as a local means of transportation is established by the 25th century, as I discussed in my book Past Lives- Future Lives. The 35th century is truly a golden age. More advance will be made technologically and spiritually in that century than in any other in history! The average age is between 20 and 30 years old due to an energy charging device called the alphasyncarium that stimulates our adrenal glands and gonads to increase its production of the hormone DHEA. DHEA is a sex hormone that functions as a major component of our immune system and is described in detail in my book Look Younger, Live Longer. Drako developed mathematical models for time travel that were, in fact, accurate. He was married to Meirah Ramona in her past life and accurately predicted the first of three cataclysms for Atlantis. The media Atlantis had both radio and television would not allow Drako Art to warn the population of this catastrophe. A medical TV reporter named Forat did grant Drako air time and many thousands of people were saved, including Meirah and Forat. Drako was killed, however. Forat was one of my former lives, so the devastating earthquake and flood did not end my past life, nor that of many others. Drako and Meirah belonged to a religion that worshiped cats. The other main theology consisted of bull worshippers. This information was obtained by me using one of my Access the Akashic Records tapes. The script is presented in my book Astral Voyages , or it could be known to me by reviewing 35th century archives. The answer to the question am I a time traveler? I can only say that a true chrononaut takes an oath never to reveal that fact, unless it is an emergency to do so. To do so would be a breach of what is known as timeline international security laws that exist in the future. Chrononauts always seek to stimulate the intellectual, emotional and spiritual growth. The answer to the question am I a time traveler can best be determined by you. There are many clues in my books - Time Travelers From Our Future and Astral Voyages and additional hints will be developed during future interviews with Art. Stayed tuned and may the space-time continuum be with us.
