Chapter 1 : Gallery: Smithsonian National Air and Space Museum

The Smithsonian Institution's National Air and Space Museum in Washington, D.C., is the world's most popular museum, with more than eight million visitors each year. The museum houses a celebrated collection of airplanes, spacecraft, and other artifacts that document the history of aviation and spaceflight.

October 5, In , the museum added the Steven F. Udvar-Hazy Center located in northern Virginia, featuring space for many larger air- and spacecraft. Space Shuttle Discovery is the newest exciting exhibit, but many other rare objects fill the museum as well. Plan a visit using information at [airandspace](#). The building opened in December, , and provides enough space for the Smithsonian to display the thousands of aviation and space artifacts that cannot be exhibited on the National Mall. The two sites together showcase the largest collection of aviation and space artifacts in the world. Astronauts Ponder the State of Exploration Credit: John Glenn and Friendship 7 Credit: The Original Starship Enterprise Credit: The model was donated to the National Air and Space Museum in The iconic prop now resides rather ignominiously in the lower level of the museum store, among the sale items. Imax Camera Donated to Smithsonian Credit: Boeing Aviation Hangar Entrance Credit: Boeing Aviation Hangar Credit: Udvar-Hazy Center is the length of three football fields and 10 stories high. Udvar-Hazy Center on April 17, Discovery is going on permanent display at the Center after a welcome ceremony on April NASA will transfer Discovery to the National Air and Space Museum to begin its new mission to commemorate past achievements in space and to educate and inspire future generations of explorers. More than 6, spectators turned out to welcome Discovery to its museum home. Udvar-Hazy Center, is in the background. Space Shuttle Discovery on Display Credit: Discovery was installed on April 19, Two Amazing Flying Machines: Enterprise was replaced by Space Shuttle Discovery in Udvar-Hazy Center in Virginia in honor of his death. Longer than a school bus at 60 feet in length and weighing 30, pounds at launch, 20 KH-9 Hexagons were launched by the National Reconnaissance Office between and
