The Collected Songs of Droon Droon is a very musical place. The Ninns are the most musical of peoples, and Hob is a well-known versifier. We grunt and pull the heavy oar Across the seas that splash and spill! We sail and sail and sail some more To our new home in Spa-arrville! Song sung by Ninns in a vision given to Keeah by Princess Neffu, showing the good princess how popular and powerful she will be if she follows evil Neffu, in Special Edition 2, Wizard or Witch? The morning sands are violet, Yet blaze a golden hue at noon. Blue seas of sand at each sunset Turn silver from the midnight moon! As the beast of beasts does sit, His dark eye draws light into it. Verses sung by Quill at various points in the long journey of the kids in Special Edition 3, Voyagers of the Silver Sand. Tortu roams from dune to dune, Crisscrossing every inch of Droon. And like the wandering turtle dome, We Ninns are searching for our home. Beware the flying silver light! Beware a boy so blond and cute, For when you see him, you must scoot! Captain Plundit is his name And snitching treasurers is his game. Songs of the Rat-faced Snitchers of Zoop, the first about their leader, Captain Plundit, the second a kind of narration of their snitching activities. Book 32, The Treasure of the Orkins. Make way for Zabilac. His turban he will pack. From here to Droon and back. As performed in Book 36, Knights of the Ruby Wand. O, come to me, my Faraway! Your voice as soft as feathers seems, Come share your wisdom night and day In wondrous visions and in dreams. The one who strikes the wolf at noon, Shall earn a secret wish in Droon. Prophecy told to Eric in a vision that he believes refers to him; it does not. In Book 18, Search for the Dragon Ship. The world is upside down. A birdy wears a spider suit. The wizard is a clown! Where the water grows teeth He wakes to new power! All Droon fears the truth Of his deadly bright fire! Find the wild street of fish. Step upon the floating dish! The ribbon ties, the ribbon breaks. Pass the test of the stomachaches! Fly me up, you flying dove, Fair as the moon, the one I love. Verse recited by Galen about a mystery woman he knew long ago, in Book 21, Flight of the Genie.

### Chapter 3 : Order of Secrets Of Droon Books - [www.nxgvision.com](http://www.nxgvision.com)

*Voyagers of the Silver Sand (The Secrets of Droon: Special Edition #3) by Tony Abbott, David Merrell With nearly 2 million books in print, this Little Apple series is H-O-T, hot. The SECRET is out -- DROON is the series that kids, parents, and teachers are talking about!*

The Genie King Special Edition 8: The Final Quest this book is the last book in the series and was originally called The Endless Voyage. Eric Hinkle is on a quest to collect the magics to save Droon and Earth from Gethwing the moon dragon. Protagonists[ edit ] The lead characters of the series are [6] Eric Hinkle - Thoughtful, honest, and the leader of the trio of best friends. The Rainbow Stairs are discovered in his basement. Eric knows from reading the writing in the Tower of Memory that he and his friends have an important part to play in the future of Droon. He dreams of the place often, is plagued by nightmares about Lord Sparr, makes mistakes, and goes out on a limb to protect his friends. Eric develops magical powers in Book This begins his long road to becoming a full-fledged wizard. In the last book, it is revealed that his great, great, great grandfather is actually Urik. Neal likes the easy life and is on a perpetual quest for food, which sometimes clouds his judgment. He is often the awkward butt of botched spells, as when he became a bug in Book 3, The Mysterious Island. Neal is something of a grumbler, but he is as loyal as they come, not thinking about personal safety when his friends are in trouble. Many of the small, cuddly creatures of Droon Lumpies, spider trolls, mole people, etc. Julie first met Neal and Eric in kindergarten, and now they are inseparable friends. Julie is there when you need her, but she prefers to look before she leaps. In Book 17, she gains the ability to fly. In Book 19, it is revealed that she can change shapes. Julie is an original and inseparable member of the Droon team. Princess Keeah - One of the most important characters in the entire world of Droon. The daughter of Queen Relna a powerful wizard in her own right and King Zello a fairly regular guy , Keeah is awkwardly learning to assume her destiny as a wizard and the successor of Galen, while still trying to be a kid. She instantly embraces Eric, Julie, and Neal as close friends. Keeah loves Droon, and her responsibility to uphold the good weighs heavily on her at times. In Special Edition 2, Wizard or Witch? Keeah emerges stronger, more confident, and more adventurous. Galen Longbeard - Wizard of Droon. Galen is the something-year-old First Wizard of Droon and a person of awesome power, if sometimes absentminded and forgetful. Cloaked in his usual blue robes and tall hat, with white hair and long white beard, Galen cuts a striking figure as he tramps around his vanishing tower and on the many adventures recounted in the Droon stories. Many ages before, Galen created and sealed the magical staircase that linked the Upper World Droon. To counter Sparr and other evildoers, Galen trains Keeah in her wizardly powers, knowing that one day she will be more powerful than all of them. In Book 11, it is revealed that the wizard was not always a bearded, old, and imposing fellow. He was quite a dashing swashbuckler, wielding a rainbow cutlass and wearing a ponytail! Urik is lost for most of the Droon saga in the looping passages of time. Loveable and capable, Urik is first really seen in Special Edition 1, The Magic Escapes, where he rescues Eric from goblins in a typically flamboyant way, by leaping from rooftops across the city of Pesh. He is very cool, and a total mystery man. Book 15, The Moon Scroll. The mysteries surrounding Zara continue from the earliest books through to the final pages of the Droon saga. Max - One of the most important characters of the entire epic tale of Droon. He has unkempt orange hair, and he often speaks with a high-pitched twitter. Max does not have magical powers, but his ability to spin webs of spider silk has come in handy, often saving the children from destruction. He takes care of Galen as much as the wizard takes care of him. We see his extended family and homeland in later books, but his first reference is in Book 1, The Hidden Stairs and the Magic Carpet. Antagonists[ edit ] The villains of the series are [7] Lord Sparr - The first time we meet the powerful sorcerer, purple fins behind his ears glowing, he is attempting to extend his evil empire across the whole of Droon. We see many sides of Lord Sparr throughout the saga. An excellent sorcerer and one of the most fascinating characters in all of Droon, Sparr has a manner of quiet, amused rage punctuated by moments of thunderous and deadly power. His initial

aim was to take over all of Droon; but this is only the first step. From there, he planned to leap to the Upper World and reclaim it. Sparr has hundreds of thousands of Ninns at his command. Sparr was nearly killed when Keeah used her magic to set his own Golden Wasp against him, but, alas, not quite finished off. Later on, we learn of the great, dark, and sad history of Sparr when Emperor Ko kidnapped him and his mother. This episode marks the beginning of a change in Lord Sparr, one that will last until the final pages of the epic.

**Salamandra** - She is the princess and later queen of an empire called Shadowthorn. She has a thorn-covered staff which she uses to steal magic and perform it. Salamandra is a teenager, first seen on a float in a parade down the streets of Pesh, the royal city that she flies around in time, using her Portals of Ages. She is a master of using thorns for magical purposes. Salamandra looks human " more or less. Her skin is a deep purple, her eyes flash with a yellow, catlike light, and she has a mass of thick black thorns that cascade down her back. Special Edition 1, *The Magic Escapes*. She first appears in Special Edition 1: *The Magic Escapes* and reappears in most of the last 11 books. Her allegiance is brought to question often, but she seems to be mostly good intended. He dominates the adventure from his first appearance, when he is described as having two pairs of wings that are very long and covered by scales the color of night. He has toothy jaws, a thick tail, and powerful forelegs ending in long, black-nailed claws. Book 23, *The Fortress of the Treasure Queen*.

**Ko** - Emperor of the beasts, ruler of ancient Goll. He is eight-feet tall, has the head of a bull, and four arms. His skin is gray, and his eyes a burning red. He also has two curved horns that spout fire, usually the green fire of beasts. Ko kidnapped Queen Zara and Sparr in , suffered defeat later by Galen, conjured himself to sleep, and was finally awoken by Sparr. His heart is dark, steely, and resolute: A terrible, powerful presence in Droon, Ko is dedicated to destroying Droon and converting all the nice spots to parts of the Dark Lands. Neffu quickly aligns herself with the bad guys and grows in power all the way through the Droon stories. Special Edition 2, *Wizard or Witch?* Supporting Characters[ edit ] These are characters who help the antagonists and protagonists [8]

**Anusa** - The beautiful Second Genie of the Dove and special friend of Galen. Anusa is the one whose task it is to help Galen on his journey of refreshment when he is very old. She helps the children greatly throughout the second part of the Droon story. She wears all white, and her hair hangs to her shoulders in a thousand braids, each strand sparkling with innumerable tiny jewels. Book 21, *Flight of the Genie*.

**Batamogi** - Fox-eared king of the Dust Hills of Panjibarrh. He rules with his nine brothers, but those brothers are often on journeys here and there. Batamogi is an excellent soul, a great friend to the children, and is extremely resourceful. Book 6, *The Sleeping Giant of Goll*.

**Demither** is a person of awesome power, who lives in water, often as a kind of serpent or wild mermaid. She has white skin, black lips, and long, wet, green hair. Her shoulders are dark and scaly. Demither is soft-spoken and subtle, except when angered. She has dominion over the creatures of the sea and of the waters themselves, and can stand up to Sparr on occasion. As one of the most important characters in the entire saga of Droon, Demither appears and reappears unexpectedly throughout the series, often revealing secrets and key information. Where does she come from? Can she be trusted? Additionally, Demither and Keeah share some kind of secret bond. In past days, he was known mysteriously only as "The Maker. Book 9, *The Tower of the Elf King*.

**Genies of the Dove** - An extraordinary bunch of time-traveling magical folks. The First Genie of the Dove is revealed later.

**Hob** - Clever and mischievous maker of intricate masks. Hob is a furry imp with yellow and red spots and a face like a snarling badger. He learned evil symbols from the walls of the ruined palaces of Goll that allow his masks to take on magical properties. He is an excellent craftsman.

### Chapter 4 : The Secrets of Droon - Wikipedia

*Official Description Trapped! The Rainbow Stairs have disappeared, and Eric, Neal, and Julie are stranded in Droon with no way home. Even worse, Young Sparr and Gethwing have escaped to the Upper World!*

With over 40 books none much longer than a hundred pages , the series is intended to get children to continue reading after one book. For the first ten or so books the plot is relatively straightforward, chronicling the adventures the children have with their new companions Princess Keeah and the wizard Galen to stop the Evil Overlord from taking over Droon. Pretty soon, though, things start to expand and many genuinely surprising twists and turns come about. The plot gradually encompasses a massive amount of characters , several different worlds including the Upper World, the "real" world where we live , and some long-needed subplots. While the books themselves are rather predictable kids books, and fall victim to many cliches, the series is quite enjoyable. The Secrets of Droon provides examples of: He has a human body shape, except for, well, the fins behind his ears. According to the artwork, Lord Sparr alternates between sporting this and a Black Cloak. And then later Neal relapses into being a bug. And then is transformed into a goblin. And then a turtle. Actually, Neal gets this one a lot. Young Galen shows up and zaps the kids out of trouble. The nobles of Droon get brainwashed by the Golden Wasp. Lord Sparr starts out as this. He undergoes a bit of character development and shakes it off, though. Well, for the most part. A magic wand gets stuck to Eric for a while. Does This Remind You of Anything? The Knights Of Silversnow contains several parallels to slavery and imperialism with the history of the Orkins. Eric imagines Keeah as this in his dream in Dream Thief. Doomy Dooms of Doom: Down the Rabbit Hole: Dreaming of Things to Come: All three of the kids dream about upcoming adventures in Droon before they happen. Sparr and the heroes in book The three main characters are pretty much supposed to be anyone within the target audience children. Pretty much every villain in the series has done this - all written out, of course. The guy should get an award for encompassing just about all the cliches associated with this character. Evil Tower of Ominousness: They call it "the evil fortress of Lord Sparr" in-universe. They want to touch his hair. Neal even lampshades it: Now I know what it feels like to be a pop star. Sparr, the kids, and Keeah for several books.
