Chapter 2 : Five things you may not know about Google Play - CNET

I selected the epub file through the android file manager, selected "Upload to Play Books," the Google Play Books app opened, the book shows up (without the book cover image showing) with an "Uploading" indicator, a few seconds later the indicator changes to "Processing"(which stayed at processing no matter what I did).

Explore the Books app On your iPhone, iPad, and iPod touch, navigate the Books app using the tabs at the bottom of the screen. On your Mac, browse your Library using the buttons at the top of the window. To buy books, click Book Store in the upper-left corner. Reading Now In this tab, you have quick access to the last book or audiobook that you were reading. You can also see items that you add to your Want To Read list and recommendations based on your reading history. Library Your Library contains all of the books, book series, PDFs, and audiobooks that you buy from the Book Store or add to your collection. Tap Collections to view just a certain media type. If you want to organize your books manually, tap New Collection, then add books from your Library. On your Mac, you can find audiobooks in iTunes. Book Store Buy new books in the Book Store. Audiobooks In this tab, you can find the audiobooks that are available in the Book Store. Learn more about audiobooks. Search Use this tab to search for specific titles, authors, narrators, and more. Read books Tap any book to open it and start reading. Apple Books remembers where you stopped and starts there when you start reading again. While reading, tap the page to bring up the navigation menu. Tap to close the book and return to your library. Tap to view the table of contents. You can also jump to any bookmarks or notes from here. Tap to change how the page looks. You can increase or decrease the font size, change to a dark background, or turn off Scrolling View to swipe between pages. Tap to search the book for a specific word or page number. Tap to save your place for later. Take notes Get more out of your book without leaving the Books app. Touch and hold any word in a book to open the text selection tool. Tap Highlight to make it easy to find your selection later, or Note to highlight the selection and add notes. To find your notes later, you might need to go to different places depending on the book. For most books, tap then tap Notes. For some books, you can just tap.

Chapter 3 : Google Drive stellt sich vor â€" Alle Ihre Dateien an einem Ort

If these steps don't work, the file type likely isn't supported by Google Play Books. Find a book in your library If you can't find an e-book or audiobook you bought in your library, follow these steps.
