

Chapter 1 : 12 books of Meghan O'Brien "Thirteen Hours", "The Night Off" and others on www.nxgvision.com

Wild is a wonderful new paranormal romance by Meghan O'Brien. I enjoyed it so much, that when I sat down to write the review the day after I finished it, I opened the ebook up to check details and ended up reading the whole thing again.

Selene is a graphic designer, but, more importantly she is a shapeshifter, as well as turning into some sort of horrible monster she thinks during the full moon. Eve meanwhile is a forensic pathologist who is attacked in a park she walks in every day, and then saved by Selene in animal form. That starts the mystery part of the story, and somewhat starts the romance part of the story. Overall Jac just seemed like much more of a male character not in a good way than a female one. On the other hand, the shifting stuff was awesome, and overall I really liked the novel. It was a fun read. DanieXJ Apr 23, 3. That is, until she finds a wounded woman in a nearby park, and there is an inexplicable attraction between the two of them. But the man who attacked her gets away, and Eve has to find him before he finds her. At the risk of sounding like a broken record in my reviews, I really wanted to like this book more than I did. The problem with the book, however, is that it feels rather uneven to me; sometimes the action is at a great pace, and sometimes the book drags so badly that I had to put the book down and read something else for a while. The last half of the book really picked up, but it felt like a chore at times getting there. Selene is an okay character, but she comes off as rather "too good" to me. Eve, meanwhile, is more fleshed out in the book, and so I could empathize with her more. In spite of it all, though, the two characters did have blistering chemistry, and the sex scenes were amazingly written and scorching hot. There were a lot of loose ends that really felt like they should have been expounded on in the story. Did she ever try to find them? How did she come to America? Are there other shapeshifters? Selene is, ultimately, adrift and alone without any type of supernatural "family. I did like the book, and I will definitely read more from the author. I just wish that the execution had been a little tighter.

Chapter 2 : About Meghan " Meghan O'Brien

Wild The only thing that frightens shapeshifter Selene Rhodes more than the full moon is the idea of falling in love. Selene Rhodes has lived her whole life with a terrible secret: not only can she take the form of any animal at will, but once a month the full moon transforms her into a fierce wolf-creature without a human conscience.
