Professor Coleman will teach a course for the Department of Political Science and a course for the Institute. Professor Healy will teach a course for the Department of Sociology and Anthropology and a course for the Institute: Professor Bradford will teach: PSCI "Governance: Professor Parpart will teach: We will examine both overt and less visible conflicts over access to water resources and the broader political economic issues these raise. Bedford will teach a course for Political Economy and a course for Sociology and Anthropology. A description of the Political Economy course is below. A Critical Introduction to Gambling and International Political Economy Gambling is a key mechanism through which we currently make sense of " and critique " dominant formulations of international political economy. The course will explore the historical and global relationship between gambling and political economy. Topics specific to Canada such as reservation planning are included. From the Local to the Global pending approval This course focuses on the upsurge in contentious politics in the post-Cold War era against neoliberal globalization. We will explore case studies of resistance at different scales including contention around international trade, food sovereignty and the environment.

## Chapter 2 : Measuring Labour Markets in Canada and the United States: Edition | Fraser Institute

*Overview. Now in its third edition, Work and Labour in Canada explores critical issues Canadian labourers face on a daily basis, concerning the development of modern capitalist structures, low wages and the increase in unpaid and alienated employment, gendered and racialized divisions of labour, and accessibility in the work environment.*

## Chapter 3 : Visiting Professors - Institute of Political Economy

*The third edition of Work and Labour in Canada maps out major trends and patterns that define working life, and identifies the economic, social, and political factors that shape the contemporary workplace. In evaluating working conditions and job quality from a critical perspective, the authors point towards possibilities for a more equitable.*
