Filled with wacky wit, irreverent humor, and twisted pop culture references, Would You Rather 2: Electric Boogaloo asks you to ponder questions such as: Would you rather be a siamese twin connected at the lips or at the soles of your feet? Would you rather have your hostage negotiator be Ozzy Osbourne or Jessica Simpson?

Gibbonia to Monquista, Albion to Marleybone, Florenzia to Valencia rather than entire side worlds like Grizzleheim was designed for Wizard? It would be pretty neat having a nice side story. Duck Holliday seems quite the scoundrel, in his own words. Are we going to learn more about him in a future promotion? The Banana Seed Heresy was mentioned in Monquista before we get to Aquila - will it be expanded upon? I assume Gracie Conrad, Catbeard, and Hawkules will all eventually receive promotion quests, correct? And as you mentioned in an above post, whose class does Argos join? Speaking of Argos - if he joins a class, does that make him a side-companion? Will the situation in Rajah, as a completely controlled world courtesy of Marleybone, be talked about? Yeah, pretty cool huh? Now, on to questions: The wrinkle is, of course, schedule. Though we might touch on it someday. I grew up on the original Doctor Who, back in the cardboard monster days. References were an absolute must, since this was our Britain analogue. Perhaps he needs to go to Azteca someday Those quests offer a decent introduction to the story element. Will it come back up? I have some ideas about returning to Monquista - we created the whole religious schism as our hook if we ever return for more than Stormgate authorization. And Hawkules, he never stops, talking, does he? We liked the idea of giving Argos away, but not as a universal companion: So what about Book 13? Well, I said we try Future dealings with or in Marleybone could easily sprinkle more details about Rajah.

An oddly named prequel has also been announced, alternatively titled Mai-Otome 0, S. Likewise for the manga versions of Tenchi Muyo! This is not to be confused with the anime versions, which are Tenchi Muyo! The Naruto anime after the time skip has the new name Naruto Shippuden roughly translated: Hurricane Chronicles , even though there was no break between the original series in Japan and this one as opposed to the manga where it was just Naruto: Was mostly likely done to notify that the 85 filler episodes were over. Ojamajo Doremi, Ojamajo Doremi Dokkan! The Minami-ke anime was followed by a sequel series called Minami-ke: Okawari literally meaning "Seconds" immediately after. A third season, Minami-ke: Most recently, there was an OVA called Minami-ke: Betsubara "second stomach", an idiom used for someone who can eat dessert even after a huge meal. The fourth season is called Minami-ke: Sister Princess was later followed up by Sister Princess Repure. Tokyo Mew Mew a la Mode where "a la mode" is supposedly used in the sense "with ice-cream" and refers to the signature color of the new team leader. The manga Gensoumaden Saiyuki became Saiyuki Reload when it switched magazines; the anime also included this distinction, as the second anime series was produced quite some time after the first one ended, and the animation and artwork styles between the two are noticeably different. Sayonara, Zetsubou-Sensei was quickly followed by a second season, with the full title Zoku: Sayonara Zetsubou Sensei, where Zoku is a dictionary term used to designate slang words and vulgarities, but is also a pun on the word for "continuation". Sayonara Zetsubou Sensei, where Goku means "prison. The anime is notable for the fact it gets a new subtitle every season starting with season 3 in the dub version. The original Japanese series has only changed its name, twice. Adventures In Unova and Beyond season The DVD releases have remedied the problem for the first two seasons: Pretty Cure 5 continued with the rather punny Yes! Pretty Cure 5 GoGo. Similarly, the Pretty Cure All Stars series is like this. The original five-minute short was just called "Pretty Cure All Stars". Also, Shugo Chara Party. Hell Girl has two follow-up seasons, each with a title incorporating its number. Season 2 is Hell Girl: Season 3 is Hell Girl: Mitsuganae, which means "Cauldron of Three". Wanyuudou explains this one for us halfway through. Since the first series was never released anywhere outside the country except for Italy until Discotek released it on DVD in North America in , when most people are talking about "Lupin III", they mean the second series. To clarify which series is which, TV Tropes uses the Fan Nickname for the original three series, which identifies the colour of the sports jacket Lupin primarily wears. Green, Red, and Pink. They used the English name for the first series as a subtitle for second one. Obviously this would make no sense in English, so it was christened Fullmetal Alchemist: The second season of Himawari! Bakugan started out with the name Bakugan Battle Brawlers for two seasons, then followed it up with a third season called Bakugan: New Vestroia, then a fourth season called Bakugan: Gundalian Invaders and a fifth called Bakugan: When they released a second film 15 years later, they simply titled it Vampire Hunter D in Japan. To avoid confusion, the second film was retitled Vampire Hunter D: Bloodlust for its English release. In Japan, the 2nd film is referred to as Vampire Hunter D: The Movie , as it was released theatrically. The Galaxy Angel sequels are named in this order: Just try making sense of that. Not that the order you watch them in matters the slightest. Rebuild of Evangelion 1. You Are Not Alone and Evangelion 2. You Can Not Advance. And in , Evangelion 3. You Can Not Redo. The aptly-named finale, Evangelion: Final, is set to be released in Which is now, in fact, named Evangelion 3. Macross Frontier is also something of an in universe example. The New Macross Class long range colony fleets are numbered at least up to eleven this is where Macross 7 gets its title but at some point after that they start naming them, hence the twenty-fifth fleet is the title Macross Frontier Colony Fleet, rather than the Macross The Gate Keepers sequel series is named Gate Keepers The story occurs in the 21st century as opposed to the

This one probably happened because Japanese people really like the word "guilty" Guilty Crown , Guilty Gear Which makes even less sense as nothing in the anime has anything to do with music or any other definition of refrain. The second season of Haiyore! Nyarko-san is called Haiyore! The precursor flash series also used this trope, with Haiyori! Nyarani followed by Haiyori! Nyarani Remember my Love craft-sensei.
